### CAUTION:

#### DIRECTIONS FOR USE

For the control of leaf spot. Make one application between June 20 and July 10.  
 At the rate of 15 lbs. per acre to supply ½ lb. of boron per acre.  
 If additional material is needed apply Copper Sulfur Dust without boron as additional boron may injure the crop. Dust only when the foliage is dry.

NOTICE: Our recommendation for use of this product is based upon tests believed to be reliable. However, this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the result to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its misuse, as well as combination with other materials.

ANTIDOTE: In case vomiting by tickling throat with emetic of strong mustard water or 1/2 cup of 5% solution of ipecac. 1 to 2 tablespoons. Follow with lukewarm milk and honey, white of egg and antacid given as necessary. If no improvement call a physician or take patient to hospital immediately.

ATTENTION: This product is for use only on crops listed on label.
