OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Debbie Schaub
General Administrator
QUALCO, Inc.
225 Passaic Street
Passaic, NJ 07056

SUBJECT: COASTAL TNT Shock
EPA Registration Number: 3525-128
Letter Date: June 17, 2013
EPA Receipt Date: June 26, 2013

Dear Ms. Schaub:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. The Agency has no objections to you updating your label in response to EPA Calcium Hypochlorite RED Label Amendment.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

If you have any questions or comments with regard to this Agency letter, please contact me via email at fuller.demson@epa.gov or by telephone at 703-308-8062.

Sincerely,

A handwritten signature in black ink, appearing to read "Demson Fuller".

Demson Fuller
Acting EPA Product Manager (32)
Regulatory Management Branch II
Antimicrobials Division (7510P)

PHYSICAL & CHEMICAL HAZARDS
STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS
 This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL
STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame.

NONREFILLABLE CONTAINER. IF EMPTY: Do not reuse or refill this container. Place in trash or offer for recycling, if available. **IF PARTLY FILLED:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

 Made & Printed in the USA

Manufactured by:
QUALCO, INC.
 225 Passaic Street/Passaic, NJ 07055

ACTIVE INGREDIENT:
 Calcium Hypochlorite.....50.0%
OTHER INGREDIENTS.....50.0%
TOTAL 100.0%
 Available Chlorine.....50.0%

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling the poison control center or doctor, or going for treatment. You may also contact 973-473-1222 for further questions.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ALWAYS USE ENTIRE CONTENTS WHEN OPENED DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
 Turn on filter. Adjust pH to the range of 7.2 to 7.6 prior to using Coastal TNT Shock. To control algae and reduce organic contaminant in pool water, add 1 lb. Coastal TNT Shock per 10,000 gallons of water. Add Coastal TNT Shock to the pool by broadcasting (sprinkling) it over a wide area of the pool surface, paying particular attention to the deep end.
IMPORTANT: Add Coastal TNT Shock at night or when the pool is not in use. To prevent any possible bleaching effect on vinyl lined pools, either use a pool brush to disperse any undissolved granules settling on the bottom of the pool, or predissolve the product in a clean, plastic pail FILLED with water. Then broadcast the solution into the pool. Do not enter until the free chlorine residual has dropped below 2.0 ppm. Use Coastal TNT Shock weekly during periods of heavy use or when water temperatures are above 80°F; add once every two weeks in residential pools receiving normal usage. Between treatments use Coastal sanitizers and pool chemicals as necessary to maintain the proper water balance.

WINTERIZING: Adjust pH to 7.2 to 7.6. Add 1 lb. Coastal TNT Shock per 10,000 gallons of water in accordance with above described directions. Run filter until completely dissolved. Then cover the pool with a winter pool cover and prepare the heater, pump and filter components for winter by following manufacturer's directions.

PRECAUTIONARY STATEMENTS
 Hazards To Humans & Domestic Animals
DANGER: Keep Out Of Reach Of Children. **CORROSIVE.** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mist. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

Net Weight: 1 lb. (16 oz.) (453.6 grams)
