Subject: Notification per PR 98-10 – Adding an alternate brand name and marketing claims
Product Name: 30% Non-Foaming Algaecide
EPA Registration Number: 3525-133
Application Date: January 2, 2019
Decision Number: 547925

Dear Ms. Schaub:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

The alternate brand name, Water Trends Pro Algaecide, has been added to the product record.

If you have any questions, you may contact Jacqueline Hardy at (703) 308-6415 or via email at hardy.jacqueline@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Jacqueline Hardy".

Jacqueline Hardy, Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510P)

NOTIFICATION

3525-133

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

7/03/2019

NON-FOAMING 30% ALGAECIDE

{Concentrated Algaecide for Use in Swimming Pools}

{Non-Foaming}

{Controls Green, Black and Mustard Algae}

{Kills Black, Green and Mustard Algae}

{Controls Algae Growth}

{For Use in Swimming Pool Water}

Effective at High & Low pH Levels}

{Compatible with Chlorinating Products}

ACTIVE INGREDIENTS:

Poly(oxyethylene [dimethyliminio] ethylene [dimethyliminio] ethylene dichloride.....	30.0%
OTHER INGREDIENTS.....	70.0%
TOTAL	100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. HOT LINE NUMBER: Have the product container with you when calling the poison control center or doctor, or going for treatment. You may also contact 973-473-1222 for further questions.

{Made Especially For The Pool Specialist}

Net Contents: 1 qt. (32 fl. Oz.) (946 ml)

This product controls algae growth in swimming pool water without causing foaming. This product is effective at both high and low pH levels. This product is compatible with chlorinating products and other chemicals used to treat swimming pools and may reduce the amount of those chemicals normally required. However, DO NOT mix this product with concentrated dry or liquid chlorinating products.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is used to control the growth of many algae types, including green, black and mustard algae. For treatment of a freshly cleaned and filled pool, add an initial dose of 12 to 24 fl. oz. this product per 10,000 gallons of water. For maximum effectiveness, heavy growth of algae must be cleaned prior to use of this product. Pools containing just visible algae growth must receive an initial dose of 24 to 36 fl. oz. of this product per 10,000 gallons of water. After 24 hours, vacuum pool to remove algae debris. On a regular basis, (every 5 to 7 days), use a maintenance dose of 4 to 9 fl. oz. of this product per 10,000 gallons of water. During, hot sunny weather, more frequent additions may be necessary. This product will prevent the growth of most algae during the off season, when the pool is not in use. For pools which have been properly treated during the swimming season, and are free of visible algae, add 13 to 21 fl. oz. of this product per 10,000 gallons of water. If at the end of the season, the pool has some visible algae growth, add 25 to 27 fl. oz. of this product per 10,000 gallons of water. For best results, circulate the pool water, prior to covering the pool for the winter.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish, aquatic invertebrates, and clams.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. STORAGE: Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. NONREFILLABLE CONTAINER. IF EMPTY: Do not reuse or refill this container. Place in trash or offer for recycling, if available. IF PARTLY FILLED: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
