

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. May be absorbed through skin. Do not breathe spray mist. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling. Do not contaminate food or feedstuffs. Keep out of reach of domestic animals. Do not use on humans, household pets, or livestock. Do not permit children or pets to go onto the sprayed grass until spray has completely dried.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Birds and other wildlife in treated areas may be killed. Do not apply directly to water (lakes, streams or ponds). Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

This pesticide is highly toxic to bees exposed to direct treatment or to residues remaining on the treated area. Do not apply when bees are actively visiting the crop, cover crop, or weeds blooming in the treatment area. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill, or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Prohibitions: Do not contaminate water, food, or feed by storage or disposal. Pesticide Disposal: Pesticide, spray mixture, or rinsate that cannot be used or chemically reprocessed must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

Container Disposal: Metal (all sizes)—Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in a sanitary landfill, or by other approved State and local procedures.

Glass (all)—Triple rinse (or equivalent) and offer for recycling, or disposal in a sanitary landfill, or by other approved State and local procedures.

General: Consult Federal, State or local official authorities for appropriate alternative procedures.

For control of the following insects apply to the following plants and crops under the following conditions:

For control of the following insects or diseases on the following plants and crops, apply to the following plants and crops under the following conditions:

GENERAL USE: In dairy barns, milking parlors, and other buildings, apply to the following insects and diseases on the following plants and crops under the following conditions:

DO NOT APPLY TO THE FOLLOWING PLANTS AND CROPS: Do not apply to the following plants and crops under the following conditions:

FOR CONTROL OF BEE DARK BOTTLES (CARRIERS OF BUTCH BEE DISEASE)

DOMESTIC TREATMENT: Apply Methoxychlor spray (50 gallons Methoxychlor E-2 with 100 gallons of water) when using a mist blower or apply Methoxychlor spray (30 gallons Methoxychlor E-2 with 100 gallons of water) when using a hydraulic force vertical jet layer any time after the larvae drop up to the appearance of the flowers or leaves, usually about the middle of June in the North. Thoroughly spray all dark surfaces. A 200-gallon tank will require 2 to 3 gallons of spray mixture when using a mist blower, and 1 gallon of spray mixture when using a hydraulic force vertical jet layer. The same conditions apply.

COMMERCIAL TREATMENT: Apply Methoxychlor spray (25 gallons Methoxychlor E-2 with 75 gallons of water) when using a mist blower or apply Methoxychlor spray (15 gallons Methoxychlor E-2 with 75 gallons of water) when using a hydraulic force vertical jet layer. The same conditions apply.
