MANUFACTURED BY

**NOVA PRODUCTS, INC.**

Kansas City, Kansas 66119

The use of this product in food processing plants during time periods when the plant is closed for treatment. All food processing equipment should be thoroughly cleaned before treatment.

Close windows and doors of fogger or vaporizer adjusted to 1/2" in diameter and 20% less than the cubic feet of space. Direct the fog into the area and behind obstructions in the treated area and ventilate after treatment.

The above described application is effective against fruit flies, mosquitoes, silverfish, scorpions, wasps, hornets, and common stored product pests: saw-toothed grain beetles, Angoumois grain moths, Mediterranean flour moth, and grain weevils.

**IN MUSHROOM PRODUCTION**—Apply to growing areas and Cacidomyiids in growing areas. Fogger should be directed slightly upward over them. Results: refrigeration should be maintained at a rate of 1 ounce to 2000 cubic feet.
