

FORMULA III
No-Pest
HOME INSECT CONTROL

- Economical do-it-yourself pest control
- Use it all around your home—inside and out
- Won't stain carpets, floors
- Low odor

TO OPERATE:

Do not spray in "off" position. Turn nozzle to "spray" or "stream" position before using. Nozzle should be 6-8 inches from surface being sprayed. Spray infested surface until wet.

Dow

FORMULA III
No-Pest
HOME INSECT CONTROL

TO KILL: PESTS OUT-OF-DOORS:

Flea, Mosquitoes: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate. Repeat as necessary.

Ants, Brown Dog Ticks, Crickets, Fleas, Earwigs: For treatment of localized infestation of these insects in outdoor areas where there are weeds or brushy non-crop areas, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as reinfestation occurs.

HOME INSECT CONTROL

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL
Store in a cool area away from heat or open flame.
DISPOSAL: Do not reuse empty container. Wrap and put container in trash collection.

PESTS INDOORS: TO KILL Cockroaches, Ants, Crickets, Silverfish, Spiders and Silverfish: Spray around baseboards, into all cracks and other places where these insects hide. Apply behind and under cabinets, refrigerators, sinks, plumbing fixtures, stoves and around wash containers. Pests flushed out of hiding places should be sprayed directly. Repeat as necessary. **ANTS:** Follow the above instructions and also spray ant trails, nests, and places where ants enter premises.

TO KILL Fleas and Brown Dog Ticks: Remove and destroy pets' old bedding. Spray sleeping quarters of pets, around baseboards, windows, door frames, walls and floor areas of floors. Repeat as necessary. Do not treat animals. Put fresh bedding in pets' quarters after spray has dried. Also treat dogs and cats with a registered flea and tick product before allowing them to enter treated area.

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS: CAUTION: May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

STATEMENT OF PRACTICAL TREATMENT
If on skin - Remove contaminated clothing and wash affected areas with soap and water.
If in eyes - Flush eyes for at least 15 minutes with water. Call a physician immediately.
If swallowed - Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not give anything by mouth to an unconscious person. Get medical attention.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, by injection, is antidote of choice.

Do not use in commercial food processing or preparation areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food.

Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surface until spray has dried.

PHYSICAL HAZARDS: Do not use or store near heat or open flame.
