

**For Use in Gardens:** Spray with slow sweeping motion not closer than 18 inches from plants. Avoid wetting plants. Spray plants only when air is still. For single plants, spray in short bursts. Repeat as necessary for control. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Contact insects directly whenever possible. Repeat application at 7 to 10 day intervals or after heavy rains.

**Flies, Mosquitoes, Gnats, Wasps and Flying Bees (Hymenoptera):** Close all doors and windows and spray room at the rate of 1 second per 1000 cubic feet. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Keep room closed for 10 to 15 minutes after treatment. Repeat as necessary.

**Roaches (Blattellidae), Silverfish Crickets, Spiders, Centipedes and Saw Bugs:** Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing. Kill insects with spray whenever possible. Repeat treatment as necessary.

**Ants:** Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

**Exposed Stages of Indian Meal Moths and Angoumois Grain Moths:** Close doors and windows. Direct spray into all parts of room, especially around stored food product containers, pallets and damaged areas. Spray 7 to 10 seconds for each 1000 cubic feet of space. Keep area closed for 15 minutes following treatment. Repeat application weekly or as needed. Infested stored products should be fumigated or treated by other effective methods using an approved product intended for this purpose.

**Exposed Stages of Flour Beetles, Weevils and Grain Mites:** Spray into cracks and crevices, processing and handling equipment, around cartons or containers and other areas where these insects tend to congregate. Spray 30 seconds for each 100 square feet of surface. Keep area closed for 45 minutes to 1 hour after treatment. Repeat application as necessary. Infested stored food products in the home should be discarded.

**Carpet Beetles:** Spray directly on beetles, baseboards, floor, shelves and base. Repeat treatment as necessary.

**Bedbugs:** Spray mattresses, particularly around folds and seams. Take beds apart and spray underneath. Treat baseboards, molding and trim. Also treat bed, headboard, and other using. Repeat treatment as necessary.

**Flies:** Spray sleeping quarters, bedding, floor and food containers where flies are kept. Repeat as necessary. Use only as recommended on this label.

**To Treat a Person:** This product is for use on the human body. It is not to be used on the face, hair, or clothing. To treat a person, hold the nozzle about 18 inches from the face and spray about 3 seconds on each side of the face. To treat the neck, shoulders and forearms, spray thoroughly. To protect the face, spray the face and head, but do not spray into the eyes. Repeat treatment as necessary when the area is susceptible.

**For Animal Quarters and Milk Rooms:** For rapid control of houseflies, use **quick knock** and **small flying insects** inside windows and doors and spray at the rate of 1 second per 1000 cubic feet of space. For best results, keep area closed for 10 minutes after spraying. Do not enter the treated area and ventilate after treatment is completed.

**PATIO, PORCH & GARDEN  
INSECT SPRAY**

• Use indoors and out of doors on  
house and garden plants • May be used  
on day of harvest • Controls mosquitoes
