

DIRECTIONS FOR USE
ONE OUNCE MEASURING SCOOP ENCLOSED

CORN—For protection of germinating seeds against resistant seed corn beetles use 4 to 5 ounces per bushel of seed. For resistant seed corn maggots, use 3-4 oz. per bushel. One pound will treat 4-5 bushels of seed corn.

*Note: Diazinon 33 Seed Treat has been mixed with graphite as an aid in safe handling and lubrication of equipment.

WARNING: MAY BE FATAL IF SWALLOWED. MAY BE ABSORBED THROUGH SKIN. Do not breathe dust. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling. Avoid contamination of feed and foodstuffs. Do not use treated seed for food, feed or oil purposes.

Treated seeds exposed on soil surface will be hazardous to birds and other wildlife. Dispose of treated excess seeds by burial. Apply this product only as specified on this label.

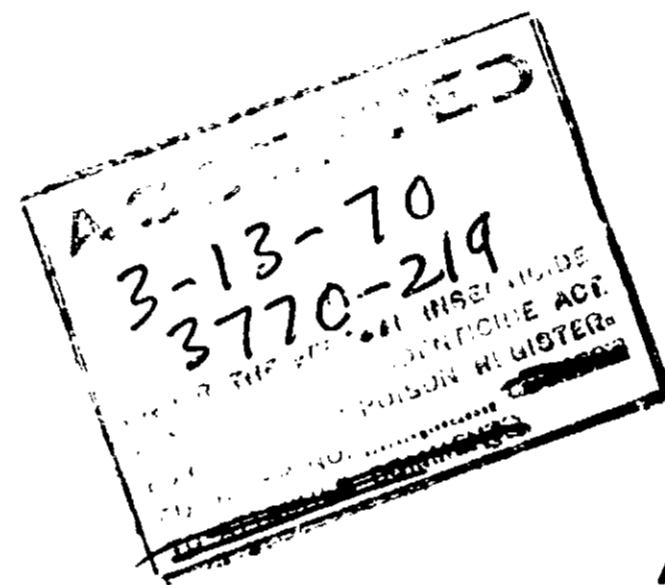

This product is toxic to fish. Keep out of any body of water. Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not reuse this container. Destroy by burying or burning. Keep out of smoke.

NOTICE: Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes all risk to persons or property arising out of use or handling and accepts the product on these conditions.
