

ACTIVE INGREDIENT - REFINED NAPHTHALENE 100%

**CAUTION: KEEP OUT OF REACH OF CHILDREN.
HARMFUL IF SWALLOWED.**

IF

Thoroughly brush and clean all articles to be stored. Place them in airtight storage trunk, garment bag, storage chest, storage closet or drawers. Cover with ALADDIN Moth Balls or Flakes.

Spread liberally, using one pound for each 50 cubic feet of tightly confined storage space. A normal size storage closet (7' x 2' x 9') requires 2 pounds, a large trunk (3' x 2' x 3') at least 1 pound.

If containers are opened, replace used portion of moth balls or flakes, using one pound to every 50 cubic feet of tightly confined storage space. Keep storage container tightly closed for at least 7 days after treatment.

When unpacked, articles should be thoroughly brushed and hung in the sunlight and air to eliminate odor.

Naphthalene should not be mixed or placed in contact with other moth preventive chemicals. Do not place on painted, polished, or plastic surfaces.
