

JUL 15 1986

Southern Chemical Products Company
P.O. Box 205
Macon, GA 31297

Attention: George Bassett

Gentlemen:

Subject: Orange Bacteriasol Germicidal Cleaner Hospital Formula
EPA Registration No. 4000-50
Your Amendment Application Dated June 16, 1986

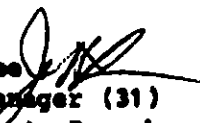

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - The signal word **WARNING** must be in the correct type size.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

John H. Lee 
 Product Manager (31)
 Disinfectants Branch
 Registration Division (TS-767C)

Manufactured by
SOUTHERN CHEMICAL PRODUCTS COMPANY, INC.
430 Lower Boundary St. • P.O. Box 205
Macon, Georgia 31201

ACCEPTED
with COMMENTS
in EPA Letter Dated:

JUL 15 1986

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.
4000-50

**PRECAUTIONARY STATEMENTS
DANGERS TO HUMANS AND DOMESTIC
ANIMALS
WARNING**

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Causes eye and skin irritation. Protect eyes. Avoid contact with skin.

**STATEMENT OF PRACTICAL TREATMENT
FIRST AID PROCEDURES**

EYES: Wash with water for at least 15 minutes and call a physician.
SKIN: Wash with plenty of water for at least 15 minutes. Remove clothing before rinse. Call a physician if irritation persists.

INGESTION: Drink promptly a large quantity of milk, egg whites, or water. If not available, drink large quantities of water. Call a physician.

ENVIRONMENTAL HAZARDS

This product could be harmful to aquatic life in concentrated form.
PHYSICAL OR CHEMICAL HAZARD

Do not expose this waterbase formulation to temperatures below 32°F. Do not apply this product in conduits, motor housings, junctions, and electrical equipment because of possible shock hazard. Do not use on surfaces.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with the label.

FOR CLEANING: For regular cleaning of most surfaces use 1 part cleaner to 10 parts water. For lighter cleaning or if a scrubbing machine is used, dilute 1 part cleaner to 20 parts water. For heavy cleaning, use 1 part cleaner to 10 or 15 parts water. In all cases, before use, apply the proper dilution with a brush or mop and allow to stand for 5 to 10 minutes. Remove with a damp mop, wet vacuum cleaner or flushing with water.

FOR DISINFECTING: Apply a dilution of 1 part cleaner to 30 parts water. Rinse with a brush or mop wetting the surface thoroughly and allow to stand for 10 to 15 minutes. Rinse surface with potable water to remove cleaner if food is to be prepared on surface.
DILUTIONS: Solutions of 1 to 20 or less are germicidal. Solutions of 20 or more are bacteriostatic.

This product is a high efficiency cleaner taking advantage of recent advances in cleaning technology for rapid and complete soil removals and balanced to give disinfectant safety at optimum cleaning dilutions. It is effective against both bacteria and fungi. It deodorizes leaving a pleasant orange fragrance and will not harm surfaces. This product contains no soap, is free rinsing and is nonfilm-forming. Recommended for use in hospitals, hotels, motels, schools, factories, and restaurants.

STORAGE AND DISPOSAL

STORAGE: Keep product in original container. Do not put contents in food or feed containers. Do not contaminate food, feedstuffs or drinking water with this product. Store at temperatures above 32°F.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by other procedures approved by local authorities.
