

[4077-23]

MIDGET AEROSOL

- FAST KNOCKDOWN AND KILL
- KILLS FLIES, MOSQUITOES, GNATS

Active Ingredients

Pyrethrins	1.20%
Technical piperonyl butoxide*	6.00%
Petroleum Distillate	12.80%
Inert Ingredients	80.00%
* Consists of 4.80% (butylcarbityl) (6-propylpiperonyl) ether and 1.20% related compounds.	

This two-ounce unit is sufficient to treat an area equal in size to that which can be treated by a conventional twelve-ounce aerosol, i.e., 80,000 cubic feet or more than 80 rooms 10' x 10' x 10' for flies, mosquitoes and small flying insects.

TO KILL FLIES, MOSQUITOES, GNATS: Hold container upright, aim away from you, and moving about room to be treated push button seven times for each 1,000 cubic feet aiming spray upward and spraying in a different area of the room each time button is pushed. It is unnecessary to hit flying insects directly as the airborne mist will remain suspended for some time and kill insects as they fly through it. Keep windows and doors closed for 15 minutes after spraying. Double the dosage to kill hornets, wasps, and more hardy insects or spray directly on crawling insects such as roaches, ants and silverfish.

CAUTION: Contents under pressure. Do not store above 120 deg. F. Do not puncture or incinerate container. Do not remain in treated area if enclosed and ventilate area when treatment is completed. Cover fishbaths while spraying.
