

# NATIONAL SPRAY

**WARNING: FLAMMABLE:** Contents under pressure. Do not use near Fire, Sparks, or flame. Do not puncture or incinerate container. Do not store where temperature exceeds 130°F. Harmful if swallowed.

**ACTIVE INGREDIENTS:**

Pyrethrins .....	0.100%
N-Octyl Bicycloheptene Dicarboximide .....	0.250%
(O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) thiophosphate** .....	0.500%
Petroleum Distillates .....	96.150%
<b>INERT INGREDIENT:</b>	
Carbon Dioxide .....	3.000%

100.000%

\*U. S. Patent No. 2,476,512 \*\*U. S. Patent No. 2,754,243

**CAUTION:** Do not use as a space spray - this product is designed for spot application only. Do not spray food, humans or pets. Contact with skin can cause toxic symptoms. In case of contact wash with soap and water. Avoid inhalation. To avoid possible staining test first in an inconspicuous place and check results the following day. Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas where food is exposed.

**DIRECTIONS:** Remove protective cap, hold dispenser upright about 8-10 inches from surface being treated. Aim nozzle, press plastic button to release spray. Apply spray covering 1 to 2 linear feet per second to infested cracks, crevices, baseboards and areas where the insects rest and hide. Moisten surface thoroughly, avoid running or streaking. Spray leaves and invisible film, that kills most insects crawling over it. **TO KILL ROACHES, WATERBUGS, SPIDER CRACKETS, SILVER-FISH** spray infested areas around and under cracks, behind shelving, book cases and other hiding places. Particularly, infested cracks, crevices and baseboards. Repeat as necessary. **TO KILL ANTS** same as above. Spray ant trails, areas around door sills. Repeat as necessary.
