MIXING AND USING DIRECTIONS

DURSBAN 2E insecticide mixes readily with water or oil. Dilute the required amount of DURSBAN 2E in water or in a base oil such as deodorized kerosene

Mix according to the following table to obtain the desired concentration of 0.25% or 0.50% DURSBAN insecticide. Use the higher concentration (0.50%) to quickly reduce heavy cockroach infestations and the lower concentration (0.25%) on light infestations.

2011-11-15 10:00  
10/1/1971

DURSBAN 2E (oz)	Water (gallons)	Oil (gallons)
1.0	4.0	0.5
2.0	8.0	1.0
4.0	16.0	2.0
8.0	32.0	4.0

Use as a spot treatment by dipping as a brush spray or with a paint brush, to areas where cockroaches normally are found. These areas include dark corners of rooms and closets, at the base of walls, in cracks in the walls, behind baseboards, behind and beneath sinks, refrigerators, stoves and cabinets and around drainpipes. Apply in a fine mist spray or mist containing food, feedstuff and water. Dishes and food handling utensils should be sprayed with water if they have become contaminated. Repeat treatment as needed. After treatment is complete, cockroaches should be removed.

Keep all containers of DURSBAN 2E insecticide tightly sealed and away from children. Do not use in areas where food is prepared or served. Do not use in areas where food is stored. Do not use in areas where food is handled. Do not use in areas where food is consumed. Do not use in areas where food is prepared or served. Do not use in areas where food is stored. Do not use in areas where food is handled. Do not use in areas where food is consumed.
