NOTIFICATION

DEC 31 1998

**Long Lasting Control  
Weather Resistant**

**Yard  
Guard**

**Lawn  
Insect  
Nozzle**

**Attaches to Your  
Garden Hose**

**For Outdoor Household Use Only.**  
For perimeter pest control to outside surfaces of buildings, porches, patios, garages and other similar areas, plus insect pests on lawns.

**ACTIVE INGREDIENT:**  
Cyfluthrin [cyano(4-fluoro-3-phenoxyphenyl)-methyl 3-(2,2-dichloroethyl)-2,2-dimethylcyclopropanecarboxylate] ..... 12%  
**INERT INGREDIENTS:** ..... 88%

**KEEP OUT OF REACH OF CHILDREN  
CAUTION - SEE ADDITIONAL CAUTIONARY STATEMENT ON BACK.**

**NET WT. 0.49oz. (14g)**

**NOZZLE CONTAINS ONE APPLICATION**

-m9

The Raid® Yard Guard Lawn Insect Nozzle is a convenient disposable sprayer which attaches to your garden hose. It contains pre-measured insecticide tablets that dissolve and are dispensed as water runs through the hose. Spraying your lawn will kill over 17 common yard insects on contact and will help prevent new infestations.

**Raid® Yard Guard Lawn Insect Nozzle controls:**  
**Home Lawn Pests**

- Ants
  - Armyworms
  - Crickets
  - Cutworms
  - Earwigs
  - Grasshoppers
  - Japanese Beetle (adult)
  - Sod Webworms
  - Ticks
  - Bluegrass Billbug (adult)
  - Fire Ants\*
  - Fleas
  - Chinch Bugs
  - Chiggers
- \* Aids in control only.

**WILL NOT HARM PLANTS AND OUTDOOR HOME SURFACES**

**STORAGE AND DISPOSAL**

**STORAGE:** Store unused nozzles in original container out of the reach of children, preferably in a locked storage area. Store in a cool dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food or animal feed.  
**DISPOSAL:** Container may be disposed of in trash after the nozzle is used. Wrap empty sprayer in newspaper and dispose of in the trash. Do not reuse. Do not dispose of unused nozzles.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**  
**CAUTION:** Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Do not get into eyes, on skin, or on clothing. Avoid breathing spray mist. If clothing becomes contaminated, remove and wash before reuse. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not allow children or pets to contact treated surfaces until surfaces are dry. Do not contaminate feed, food or drinking water.

**FIRST AID**

**IF ON EYES:** Hold eyelids open and flush with plenty of water. Call a physician if irritation persists. **IF SWALLOWED:** Call a physician or Poison Control Center. Administer water freely and induce vomiting by giving one dose of syrup of Ipecac. If vomiting does not occur within 10 to 20 minutes, administer second dose. If syrup of Ipecac is not available, induce vomiting by sticking finger down throat. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person. Avoid alcohol. **IF ON SKIN:** Wash thoroughly with soap and water. Get medical attention if irritation occurs. **IF INHALED:** Move victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.  
**TO PHYSICIAN:** No specific antidote is available. Treat the patient symptomatically.

**ENVIRONMENTAL HAZARDS**

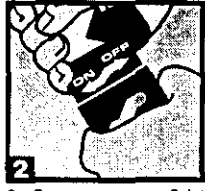

This pesticide is extremely toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not apply when weather conditions favor drift from treated areas. Do not apply to lawn areas when water logged or the soil is saturated with water. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Apply this product only as specified on this label.  
This pesticide is highly toxic to bees exposed to direct treatment or residues on plants or weeds. Do not apply Raid® Yard Guard Lawn Insect Nozzle, or allow it to drift onto plants or weeds on which bees are actively foraging. Additional information may be obtained by consulting your Cooperative Extension Service.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Make sure the ON/OFF knob is in the closed position. Attach the nozzle to a garden hose. Screw on tightly.

2. Turn water on. Point sprayer away from you and twist the ON/OFF knob to the open position to begin spraying.

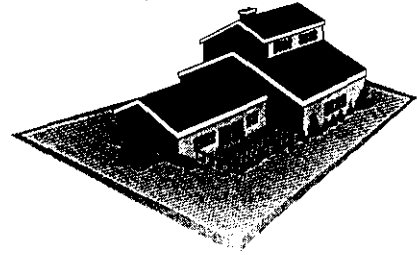

3. Hold the nozzle at waist level and slowly sweep the area to be treated. Move at a steady pace. Spray surface until wet but do not saturate or allow runoff to occur. Do not apply when weather conditions favor drift from treated areas. Do not spray into the wind.

4. You can stop spraying at any time by twisting the ON/OFF knob to the closed position.

**USE THE ENTIRE CONTENTS IN ONE USE.** Contents are exhausted when tablets are no longer visible and water does not have a milky look. Do not store a used sprayer.

Apply to lawn when insects first appear. Keep children and pets off treated areas until lawn has dried following application. Do not apply to lawn areas when water logged or soil is saturated with water. Delay watering or mowing for 24 hours for optimum control of armyworms, cutworms and sod webworms.  
**Treats: A 960 Square Foot lawn.**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**1.** Make sure the ON/OFF knob is in the closed position. Attach the nozzle to a garden hose. Screw on tightly.  
**2.** Turn water on. Point sprayer away from you and twist the ON/OFF knob to the open position to begin spraying.

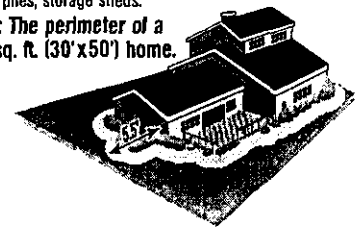

**3.** Hold the nozzle at waist level and slowly sweep the area to be treated. Move at a steady pace. Spray surface until wet but do not saturate or allow runoff to occur. Do not apply when weather conditions favor drift from treated areas. Do not spray into the wind.  
**4.** You can stop spraying at any time by twisting the ON/OFF knob to the closed position.

**USE THE ENTIRE CONTENTS IN ONE USE.** Contents are exhausted when tablets are no longer visible and water does not have a milky look. Do not store a used sprayer.

**For Outdoor/Perimeter Pests, treat the following areas:**

- 3-4 foot wide band around and alongside the foundation of the house.
- 1-2 feet up along the side of the house.
- Soil, turf or walkways adjacent to the foundation.
- Around edges of door and window frames if insects have been seen there.
- Where dissimilar building materials meet, i.e. where brick meets wood trim or siding meets window edges.
- Where cracks are visible.
- Around & into any openings where utilities enter the home.
- Other outdoor areas where insects are present: garage surfaces, carports, patios, driveways, sidewalks, around wood piles, storage sheds.

Treats: The perimeter of a 1500 sq. ft. (30'x50') home.
