Subject: 2 oz. Metered Chlorinating Tablets
EPA Registration No. 4829-78
Your Amendment Dated August 16, 1990
Tab-A-Day Fast Dissolving Chlorinating 1-3/4 oz. Tablets
EPA Registration No. 4829-79
Tab-A-Day Fast Dissolving Chlorinating 2-1/4 oz. Tablets
EPA Registration No. 4829-80
Tab-A-Day Fast Dissolving Chlorinating 3-1/2 oz. Tablets
EPA Registration No. 4829-81
Tab-A-Day Fast Dissolving Chlorinating 4-1/2 oz. Tablets
EPA Registration No. 4829-82
Tab-A-Day Fast Dissolving Chlorinating 1/2 oz. Tablets
EPA Registration No. 4829-83
Tab-A-Day Fast Dissolving Chlorinating 1-1/8 oz. Tablets
EPA Registration No. 4829-84
Your Amendments Dated August 17, 1990

Dear Ms. Hoffmann:

This is in response to your registration amendment submissions for label revisions and updated Confidential Statements of Formula.

The amendments referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, are acceptable subject to the comments listed below. A stamped copy of each product's labeling is enclosed for your records. Five copies of each product's finished labeling must be submitted before the product is released for shipment.

CONCURRENCES

SYMBOL							
SURNAME							
DATE							

1. The Statement of Practical Treatment must be on the front panel (rather than just referenced on the front panel).

2. In the Storage and Disposal section, add the following pesticide disposal text (in accordance with PR Notice 83-3):

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

3. For each of the subject products, in order to declare 63.0% Trichloro-s-triazinetrione, the Confidential Statement of Formula (CSF) must indicate 63.7% in item 13(b). The percentage inert ingredients must also be revised accordingly, as well as the amounts in 13(a). Submit a revised CSF for each product.

4. In your revised CSFs, make sure to enter upper and lower certified limits in items 14(a) and 14(b). Note that for the active ingredient, the lower certified limit must be the same as the percentage on the label.

If you have any questions about these comments, you may call Wallace Powell at (703) 557-6938.

Sincerely,

Walter C. Francis
Acting Product Manager (32)
Antimicrobial Program Branch
Registration Division (H-7504C)

ACCEPTED
with COMMENTS
to EPA Letter Dated:

DEC 12 1980

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, this pesticide
registered under EPA Reg. No.
4829-84

Tab-A-Day Fast Dissolving Chlorinating Tablets provide effective control of bacteria and algae growth in pool water. Do not add this product directly to pool water or to continuous tablet chlorinating devices. Tab-A-Day Fast Dissolving Chlorinating Tablets are intended for addition to the pool skimmer or into a floating dispenser. Do not mix this product with any other chemical.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

START-UP:

When starting up a reopened or freshly filled swimming pool, make sure that the filtration system is clean and operating properly. Adjust and maintain the pH in the range of 7.2 to 7.6. Use Coastal pH Plus or pH Minus as indicated by a test kit. Then superchlorinate with either a shock treatment or stabilized chlorinating granules to establish a positive free chlorine residual of 1.0 to 1.5 ppm (parts per million). Raise the cyanuric acid level, if necessary, to 35 ppm by adding Coastal Chlorine Stabilizer, following label directions.

DAILY:

Add Tab-A-Day Fast Dissolving Chlorinating Tablets to the pool skimmer as necessary to maintain a 1.0 to 1.5 ppm (parts per million) chlorine residual. A suggested dosage is one Tab-A-Day Fast Dissolving Chlorinating Tablet per 5,000 gallons (daily). This dosage may vary due to unusual conditions such as heavy bather loads, wind, heavy rain and high temperatures. Therefore, frequent use of a test kit is recommended as a guide to maintain the chlorine residual at 1.0 to 1.5 ppm and the pH at 7.2 to 7.6.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep Out of Reach of Children. Corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

STATEMENT OF PRACTICAL TREATMENT

FIRST AID:

IF ON SKIN: Brush off excess chemical and flush skin with plenty of water for at least 15 minutes. If irritation persists, get medical attention.

IF IN EYES: Immediately flush with plenty of cold water for at least 15 minutes. Get immediate medical attention.

IF INHALED: Remove person to fresh air. Get immediate medical attention.

IF SWALLOWED: Promptly drink large quantities of water. DO NOT induce vomiting. Call physician immediately.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. Isolate container, if possible, in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the E.P.A.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat and open flame. In case of decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water to dissolve all material before discarding container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
