

BIO-GUARD S-10 DISINFECTANT is effective against a wide variety of gram-positive and gram-negative bacteria and pathogenic fungi.

BIO-GUARD S-10 DISINFECTANT is also an excellent deodorant. Use it anywhere unpleasant odors originate.

BIO-GUARD S-10 DISINFECTANT mixes readily with water and makes a clear, stable solution. In use dilution, it is non-corrosive and non-staining on painted surfaces, glass, plastics, concrete, tile and most common metals.

DIRECTIONS

Use for general disinfecting and sanitization in hospitals, public rooms, homes, restaurants, barber and beauty shops, and pet animal quarters. Recommended for counters, tables, floors, walls, metal, plastic and polished wooden furnishings and equipment.

FOR DISINFECTION

1. Flush away soils with water wherever possible.
2. Clean with a solution of 2½ ounces of BIO-GUARD S-10 per gallon of water.
3. Rinse with clear water.
4. Apply disinfecting solutions so as to thoroughly wet all surfaces. For non-porous, easily cleaned areas, make a disinfecting solution of 2½ ounces of BIO-GUARD S-10 per gallon of water. For porous surfaces, areas difficult to clean, or contagious disease areas, make a disinfecting solution using 5 ounces of BIO-GUARD S-10 per gallon of water.

FOR DEODORIZING

For garbage cans and similar refuse areas, use a solution of 8 ounces per gallon of water. Spray or wet all surfaces.

For deodorizing other areas, use 4 ounces per gallon of water.

FOR FOOD PROCESSING PLANTS

1. Flush away soils with water.
2. Clean and sanitize with a solution of 2 oz. of Bio-Guard S-10 per gallon of water, using a clean brush, mop or pressure sprayer.
3. Rinse thoroughly with potable water.

CAUTION

Harmful if swallowed. Causes eye irritation. Avoid getting in the eyes or on the skin. In case of contact, wash thoroughly with water. If irritation persists, get medical attention. Avoid contamination of feed or foodstuffs. Avoid breathing spray mist.

Rinse empty container thoroughly with water and discard it.
