GENERAL INFORMATION

THIS DISINFECTANT reduces the surface tension of water improving its wettability. Microbes are capable of mass reproduction in sub-visible pores, scratches and cracks of surfaces. The exceptional wettability of THIS DISINFECTANT improves the penetration of the use dilution into areas that might not otherwise be reached. After the initial demand for disinfectant has been satisfied, any remaining DISINFECTANT will establish a residual bacteriostatic effect.

Using A O A C test methods, this Disinfectant will kill the following organisms at recommended use dilutions:

PATHOGENIC BACTERIA

- Escherichia coli
- Pseudomonas aeruginosa
- Salmonella choleraesuis
- Salmonella typhosa
- Staphylococcus aureus
- Streptococcus pyogenes

FUNGI

- Aspergillus niger
- Candida albicans
- Trichophyton interdigitale

DANGER

Keep Out of Reach of Children. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.
