

This product is an oil base mop treatment for excellent floor maintenance. Floors stay clean for a longer period of time.

Use this product to keep floor care at a minimum with low cost.

DIRECTIONS

TREATING THE MOP: To determine the amount of Bio-Guard Dust Mop Fluid to be used, divide the length of the mop in inches by 3. This is the number of ounces of this product to use.

EXAMPLES: A 24-inch mop requires $24 \div 3$ or 8 ounces of this product. An 18-inch head mop requires $18 \div 3$, or 6 ounces of this product.

With the mop head on the frame, distribute the required ounces of this product as uniformly as possible onto the back of the mop head. (On mop heads on wooden frames, merely pour the treatment onto the wooden block.) Mops should stand overnight to insure thorough, even saturation of the strands.

CAUTION: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Avoid getting in eyes or on skin. Avoid contamination of food or foodstuffs. Avoid breathing spray mist.

In case of contact, wash thoroughly with water. If irritation persists, get medical attention. If swallowed, do not induce vomiting. Vomiting may be harmful. Drink plenty of liquids, avoid alcohol, and see a physician.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

Rinse empty container thoroughly with water and discard it.

EPA Est. No. 5185-GA-1

Bio-Guard[®] DUST MOP FLUID AND FLOOR SHINE

An excellent mop treatment for the care of most floors, including linoleum, composition, asphalt, terrazzo, rubber tile and all types of marble floors in homes, schools and public buildings.
