bioMeT 607

bioMeT 607 is a durable sanitizer for use in hospital, industrial and home laundries. When used according to directions in the final rinse water bioMeT 607 Sanitizer will effectively inhibit the growth of many organisms.

DIRECTIONS FOR USE

1. *For linens and light weight articles*—Use 1 fluid ounce of bioMeT Sanitizer and a maximum of 60 gallons of water per 100 pounds of dry laundry.
2. *For blankets, drapes and other heavy articles*—Use 1½ to 2 fluid ounces of bioMeT Sanitizer and a maximum of 60 gallons of water per 100 pounds of dry laundry.

GENERAL

Before adding to the rinse water the bioMeT 607 should first be diluted at the ratio of 5 parts of water to 1 part of bioMeT 607. This solution should then be added to the last rinse while rinse water is under agitation.

Retention time should be approximately 5 minutes at a temperature of 110 -140 F.
