GENERAL INFORMATION:

Old Fox Daconil 2.5 G fungicide is highly effective and widely recommended for the control of a number of important lawn diseases. For proper turf maintenance, Daconil 2.5 G should be applied before diseases are expected to appear.

Daconil 2.5 G is formulated for use on lawns, parks, grass tennis courts and other fine turf areas.

DIRECTIONS FOR USE:

Lawn and turf-for disease prevention and/or curative measures on moderate disease infestations on any of the following:

- | | |
|---|----------------------------------|
| Helminthosporium
leaf spot and melting out | Copper spot
(Curvularia spp.) |
| Curvularia leaf spot | (Sclerotinia homoeocarpa) |
| Dollar Spot | (Rhizoctonia solani) |
| Brown patch | (Piricularia grisea) |
| Green leaf spot | (Puccinia graminis) |
| Stem rust of bluegrass
(Helminthosporium spp.) | (Gloeoeercospora sorghi) |

Apply 8 pounds of this material on 1,000 square feet (25' x 40') of damp lawn. For best results, apply following a light rain or water lawn before application. Do not mow or water grass after treatment, wait until the grass is thoroughly dry. A 24-hour waiting period is preferred. Do not graze or feed clippings to live stock. Repeated applications should be made on 7-14 day intervals.

Lawn and turf-for curative treatment of severe disease conditions for any of the above diseases, apply 16 pounds of this material on 1,000 square feet (25' x 40') on damp lawn. Depending on the severity of the disease, additional applications may be necessary on a seven-day schedule.
