

PENTA CONCENTRATE C-10 when mixed and applied according to directions prevents dry rot - mildew - attack by termites, powder post beetles and carpenter ants.

Repels water - prevents splitting, checking and warping
Reduces swelling due to moisture absorption.

DIRECTIONS FOR USE

To make a ready-to-use solution which contains 5% Technical Pentachlorophenol, mix one gallon of **PENTA CONCENTRATE C-10** with 7 gallons of a light petroleum solvent such as kerosene, mineral spirits, diesel fuel or No. 2 Fuel Oil. If the surface to be treated will be painted after treatment, use only Mineral Spirits for diluting. Stir thoroughly.

Wood must be free of bark, dry and well-seasoned. After mixing as above, brush or spray two liberal coats. Soak two hours for lumber up to two inches thick. Heavier timbers and posts should soak overnight. Air dry for 48 hours before painting.

WARNING

COMBUSTIBLE MIXTURE--KEEP AWAY FROM HEAT, SPARKS AND OPEN FLAME. CONTAINS MINERAL SPIRITS & PENTACHLOROPHENOL. MAY CAUSE BURNS.

Do not get in eyes, on skin or clothing. Avoid breathing of vapors. If swallowed, call a physician immediately; do not induce vomiting. In case of contact, immediately remove all contaminated clothing including shoes and flush skin for at least 15 minutes. For eyes, get medical attention. Wash clothes before reuse. Do not transfer contents to unmarked containers. Close tightly when not in use. Use same precautions with diluted solutions. Wear rubber gloves and protective clothing when handling the freshly treated lumber. Do not use mixing containers for foodstuffs.

This product will kill fish and wildlife. Keep out of ponds, lakes and streams. Do not contaminate water by cleaning of equipment, or disposal of wastes.

NOT FOR USE OR STORAGE IN OR AROUND THE HOME.
