FRONT
PANEL

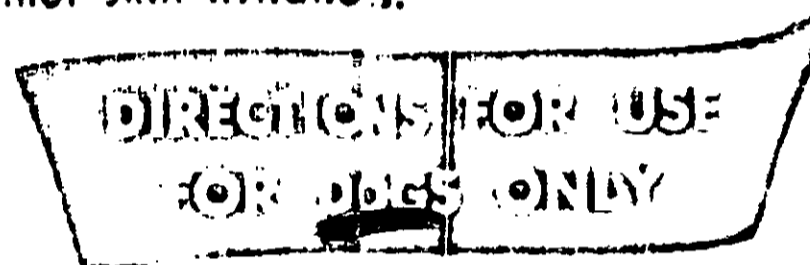

FLEA KONTROLLER

A new scientific formula, much more powerful than ordinary and specially adapted for use on dogs only.

It not only has quick kill properties but also has "residual" action which means longer protection against fleas and other similar insects.

It also contains ingredients which tend to prevent scratching in dogs when due to minor skin irritations.

Dust this pet powder freely on the animal to be treated, paying particular attention to the back, the neck, and the top of the head. Avoid getting powder into animal's eyes.

BUYER ACCEPTS FREE OF WARRANTY AS TO RESULTS.

Caution: May be absorbed through skin. Wash hands thoroughly with soap and warm water after handling the concentrate or applying the diluted product to animals. Harmful if swallowed (H.P.). Keep out of reach of children. (H.P.) Avoid contamination of feed and Food Stuffs.
