#### Directions for Cleaning and Disinfecting Toilet Bowls and Urinals Michco Instant Bowl Cleanse

Michco Instant Bowl Cleanser disinfects and deodorizes as it cleans encrusted toilet bowls and urinals with rust inhibitors, wetting agents and emulsifiers to attack scum and rust.

**Toilet Bowls** - Remove water from bowl by forcing water over trap. Hold mop over bowl and pour a minimum of 2 ounces of cleaner on mop. Swab entire inside area of bowl especially under rim and water outlets. Swab seat and cover. Flush toilet and rinse mop. Wipe seat and cover with a damp sponge.

**Urinals** - Place clean mop over trap in urinal and saturate with cleaner. Clean urinal thoroughly, be sure to wet entire surface. Work cleaner into grooves along side, at water outlet and at top of urinal. After surface is clean remove screen at urinal trap and pour minimum of 2 ounces around the drain opening and into drain outlet to deodorize. Allow cleaner to work 10 minutes then swab inside of pipe thoroughly. Replace screen. Flush well.

**First Aid** - If swallowed call a physician immediately. Drink a teaspoon or more of milk of magnesia or a cup of soapy water followed with milk or raw egg white.

**Eye Contact** - Wash with water for 15 minutes. Get prompt medical attention.

**Skin Contact** - Wipe off the acid gently, immediately flood the surface with water using soap freely, then cover with moist magnesia or baking soda.

**Note** - Empty container and rinse with water before disposing. In case of spillage wash area with water. Avoid splashing on nylon or cotton. Keep container closed when not in use.

**DANGER**  
Instant Bowl Cleanser contains Hydrogen chloride acid. **DO NOT MIX WITH CLEANSERS, BLEACHES OR OTHER CHEMICALS** as harmful gases may result.
