

[5747-4]

DIRECTIONS

FOR CONTROL OF FLIES, MOSQUITOES — Close doors and windows, directing spray toward ceiling, hitting as many insects as possible. The room should be filled with mist and remain closed for 15 minutes. DO NOT REMAIN IN TREATED AREAS TO AVOID INHALATION.

FOR CONTROL OF ROACHES, WATERBUGS, and SILVERFISH — Spray liberally the area infested, directly into cracks and other hiding places such as behind woodwork, mouldings or wherever insects can hide. Hitting as many insects as possible. Repeat application as often as necessary.

FOR CONTROL OF BEDBUGS — Spray thoroughly all cracks, crevices, springs, bedsteads, behind woodwork, mouldings and corners, or any place that an insect can hide. Mattresses should be thoroughly renovated.

FOR CONTROL OF ANTS — Spray directly on ants, hitting as many as possible. Spray and wet ant hills, nests and runways. Repeat as necessary.
