## GENERAL DIRECTIONS

### USE TERRO-CIDE 15

TERRO-CIDE 15 is a soil-dwelling insecticide and nematicide. It is used to control nematodes, wireworms, and other soil-borne insects and diseases. It is applied to the soil in the form of a granular material.

TERRO-CIDE 15 is available in 40% and 15% formulations. The 40% formulation is used for general soil treatment, while the 15% formulation is used for spot treatments.

**WHEN TO TREAT.** TERRO-CIDE 15 should be applied to the soil before planting or before the soil becomes infested. It is most effective when applied to the soil in the form of a granular material.

**SOIL PREPARATION.** The soil should be prepared in the usual manner before applying TERRO-CIDE 15. It is most effective when applied to the soil in the form of a granular material.

**HOW TO TREAT - OVERALL.** TERRO-CIDE 15 should be applied to the soil in the form of a granular material. It is most effective when applied to the soil in the form of a granular material.

**HOW TO TREAT - SPOT.** TERRO-CIDE 15 should be applied to the soil in the form of a granular material. It is most effective when applied to the soil in the form of a granular material.

**KEEP AWAY FROM CHILDREN AND DOMESTIC ANIMALS.** TERRO-CIDE 15 is a soil-dwelling insecticide and nematicide. It is used to control nematodes, wireworms, and other soil-borne insects and diseases.

**REGISTERED TRADE NAME OF THE MANUFACTURER.** TERRO-CIDE 15 is a registered trademark of the manufacturer.

**REGISTERED TRADE NAME OF THE MANUFACTURER.** TERRO-CIDE 15 is a registered trademark of the manufacturer.

## EXPOSURE PERIOD

### WHEN TO PLANT

TERRO-CIDE 15 should be applied to the soil before planting or before the soil becomes infested. It is most effective when applied to the soil in the form of a granular material.

## DOSAGE AND USE RECOMMENDATIONS
