

This product is a chlorinating bactericide, designed for use on utensils and equipment used in handling milk and other food items.

### PRECAUTIONARY STATEMENTS

Hazardous to Humans and Domestic Animals

#### DANGER

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse. Avoid contamination of food.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact your regional office of EPA.

#### PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire explosion. In case of contamination or decomposition do not reseal container. If possible isolate container in open air or well-ventilated area. Flood with large volume of water if necessary.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### DIRECTIONS FOR USE OF THIS PRODUCT ON FARM

- Cleaning and Disinfecting Cans, Pails and Other Dairy Utensils:**
1. Right after milking, rinse all utensils thoroughly with fresh cold water.
  2. Brush utensils thoroughly with warm water and soapless cleaner and rinse with fresh clear water.
  3. Prepare a disinfecting solution of this product.
  4. Just before milking, rinse the clean utensils with a solution of this product, or where ordinance requires, completely immerse the utensils in a solution of this product.
  5. Make a fresh solution of this product daily.
- Milking Machines:**
1. Draw at least 1 bucketful of water through milking machine while still attached to suction line. Repeat, using warm water and soapless cleaner and rinse. Clean metal parts of milking machine and rinse.
  2. Place teat cups and rubber tubing on rack and fill with a solution of this product or submerge them in solution. Let soak until ready to use.
  3. Treat milking machine pail and cover same as other utensils.

#### TO MAKE UP DISINFECTING SOLUTION:

Dissolve 2 oz. of this product into 2 1/2 gallons of water (approx. 200 ppm Av. Cl.) If solutions are not tested periodically, it is wise to add an extra ounce of this product to water to be sure that Av. Cl. is over 50 ppm at all times. This product is approved by Boards of Health for use on Dairy and Milking Utensils.

#### DIRECTIONS FOR RESTAURANTS-TAVERNS

- To Disinfect Dishes, Glasses and Canning Jars:**
1. First Sink: Wash thoroughly with a good detergent.
  2. Second Sink: Rinse in clean water. Change water frequently.
  3. Third Sink: Mix one ounce of this product with 3 1/2 gallons of clean water and stir to mix. (NOTE: Supplies approx. 100 ppm av. cl.) Immerse clean items in this solution for at least 2 minutes. Remove and air dry.
  4. Check chlorine content every 2 hours. If chlorine content drops below 50 ppm, empty third sink and prepare a fresh solution.

#### CLEANING AND DEODORIZING

(Not a Disinfectant)  
**REFRIGERATORS:** Wash out with a solution of 1 oz. of this product to a quart of water.  
**COFFEE AND TEAPOTS:** Add 1 oz. of this product to a quart of water in pot; let stand 2-3 minutes. Wash with cloth. Rinse and air dry.  
This product is approved by Boards of Health for use in Restaurant and Tavern Utensil (Dishes, Glasses, etc.) Sanitizing.

#### STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in cool, dry, well-ventilated area away from heat or open flame. In case of a decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area or bury in a safe place.
