

DIRECTIONS: SHAKE BEFORE USING. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

For Flies, Mosquitoes, Gnats, Wasps, and Flying Moths:

Close doors and windows. Spray upward into center of room with a sweeping motion. Spray 5-10 seconds for average room. Keep spray 3 ft. from surfaces. Keep room closed for 15 minutes after spraying.

For Roaches, Waterbugs, Silverfish, Crickets, and Ants:

Spray baseboards, cracks, crevices, moist areas, and openings around sinks and pipes and other hiding places. Hit the insects directly. Spray ant hills and ant trails leading into the house.

For house plants: Hold can 18" from foliage and spray in short bursts. Spray both sides of the leaves lightly. Do not wet. Kills Aphids, Spider Mites, exposed Thrips, Lace Bugs, and certain other insects. Repeat as often as necessary.

For Sucking Insects: Kills Aphids, Leafhoppers, Spotted Mites, exposed Thrips, and Lace Bugs when sprayed directly on insects.

For Chewing Insects: Kills certain Caterpillars, Mexican Bean Beetles, Climbing Cutworms, and Japanese Beetles when sprayed directly on insects.

For best results spray in evening or on a cloudy day when air is still. Use slow sweeping motion. Keep spray 18" from plants. Avoid wetting foliage. Spray with caution on young plants and new growth. Do not spray when temperature exceeds 90° F.

Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120° F. Cover fish bowls and remove birds for 1 hour when spraying rooms. Avoid inhalation. Cover exposed food and utensils. Can be used around food products provided they are protected from direct contact during spraying. Keep spray 3 ft. away from fabrics and furniture. May stain, if sprayed too closely.

Pyrethrins	0.25%
Piperonyl butoxide, technical	0.80%
N-octyl bicycloheptene dicarboximide	0.40%
Petroleum distillate	8.25%
