

DESCRIPTION

2,4-D LOW VOLATILE ESTER is a specialized weed and grass killer formulation for fast and excellent use around highways, fire lanes, pasture lands, industrial fence rows and similar areas.

DIRECTIONS

For application in spring and summer any time after weeds reach full leaf stage until start of dormant season, mix one gallon of this weed killer thoroughly in 80 gallons of clear water. Apply as a spray to the foliage, using sufficient pressure (80 pounds or more) and sufficient solution to assure adequate penetration and coverage of all parts of the plant. Plants which are inadequately sprayed or are tolerant should be retreated.

CAUTION

Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

NOTE: 2,4-D LOW VOLATILE ESTER exposed to freezing temperatures would be warmed to above 40°F. and mixed thoroughly before using.

CAUTION

Tolerant species may require repeat applications for effective control.

Do not apply to or allow contact with susceptible plants as tomatoes, beans, peas, flowers, grapes, fruit trees, ornamentals, alfalfa, clover, soybeans, tobacco or other desirable plants which are sensitive to 2,4-D. Do not allow spray or fumes to drift onto them. Since minute quantities may cause injury.

Vapor: from this product may injure susceptible plants in the vicinity of application. Application should be carried out only when there is no hazard from drift, coarse sprays are less likely to drift. Do not contaminate irrigation water or water used for domestic purposes. Excessive amounts of this weed killer in the soil may temporarily inhibit seed germination or plant growth.

Because of the difficulty of thoroughly cleaning spraying equipment used with this product, such equipment should not be used for handling and applying other agricultural chemicals. Shipping containers should be destroyed and not reused.

Do not store or spill this preparation on or near food, fertilizers, seeds, insecticides or fungicides.

Do not reuse empty drum or container. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.
