

"MLP" MOSQUITO FOG

FOR USE IN FOGGING EQUIPMENT TO KILL MOSQUITOES

Active Ingredients:

% by Weight

Malathion*	3.80%
Beta-butoxy beta' — thiocyno diethyl ether	1.70%
Pyrethrins	0.07%
Aromatic petroleum derivative solvent	14.50%
Isoparaffinic hydrocarbons	79.93%

100.00%

DIRECTIONS

Thermal fog machines produce extremely fine spray particles which hang over the ground, penetrating the areas occupied by adult mosquitoes. Thermal fogging with this concentrate will kill adults on contact.

For outdoor area control of mosquitoes and similar small flying insects, envelop the area to be treated in a fine fog. Avoid over-spraying of ornamental and native plants to minimize the phytotoxicity of the oil carrier. Follow the sprayer manufacturer's directions for an even penetration of fog at a rate not to exceed 2 gallons per acre, or less than 1/2 gallon per acre.

For best results thermal fogging should be done during the cooler hours of the night or early morning and when the wind is not in excess of 3 miles per hour. Timing should coincide with the greatest mosquito activity. Repeat as necessary.

CAUTIONS: Harmful if inhaled, swallowed, or absorbed through the skin. Avoid breathing spray mist. Avoid contact with skin, eyes, and clothing. Store away from children and domestic animals. Avoid contact with feed and foodstuffs. In case of contact wash with soap and water; for eyes, get medical attention. Keep container closed and away from heat and open flame.

"Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place."

"Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label."

This product is toxic to fish.

Keep out of any body of water.

Do not spray food or feed crops.

Injury may occur on certain ferns and some species of Crassula.

Note to Physicians: Malathion, may cause cholinesterase inhibition.

Atropine in antidotal.

ACCEPTED WITH COMMENTS

*O, O-dimethyl dithiophosphate of diethyl mercaptosuccinate

Contains Malathion and Lethane® 384

® Lethane is a trademark of Rohm and Haas Company

CAUTION:

KEEP OUT OF REACH OF CHILDREN.
HARMFUL IF SWALLOWED.

See side panel for additional cautions.

NET CONTENTS: 55 GALLONS

U. S. D. A. Reg. No. 6796-7
