

# BLUCO 101 MOSQUITO FOG

APPROVED  
EPA REG. NO. 6796-12

## For Use in Fogging Equipment to Kill MOSQUITOES

### ACTIVE INGREDIENTS:

|                                 |           |
|---------------------------------|-----------|
| Melathion*                      | 2.7700%   |
| Pyrethrins                      | 0.0126%   |
| n-octyl Sulfoxide of Isosafrole | 0.0554%   |
| Related Compounds               | 0.0076%   |
| Aromatic Petroleum Hydrocarbons | 5.8000%   |
| Petroleum Distillate            | 91.2094%  |
| INERT INGREDIENTS               | 0.1450%   |
| TOTAL                           | 100.0000% |

\*O,O-Dimethyl dithiophosphate of diethyl mercaptosuccinate

EPA Reg. No. 6796-12

Manufactured for:  
**BLUE RIDGE OIL COMPANY**  
Garfield, N. J. 07026

Thermal fog machines produce fog that hangs over the ground, penetrating the mosquito's. Thermal fogging kills on contact.

For outdoor area control of flying insects, apply fog at the rate of 0.275 gallons per acre achieved by a vehicle moving and covering a 300 foot swath.

Avoid over-spraying of ornamentals to minimize the phytotoxicity of the fog. 75 gallons per acre.

For best results, fog during the cooler hours of the night or early morning. Avoid excess of 3 mil. fog. Fog during the greatest mosquito activity.

**CAUTION — HARMFUL IF SWALLOWED THROUGH THE SKIN.** Avoid contact with children and pets. Do not use in spray mist. Avoid contact with foodstuffs. In case of contact, get medical attention.

**DO NOT POUR, SPILL OR SPREAD**

This product is a flammable liquid. Do not use in areas where there is a fire hazard or where it may be used in a confined space. This product is for use in agricultural Extension Service.
