

For Use in Fogging Equipment to Kill MOSQUITOES

ACTIVE INGREDIENTS:

Malathion*	3.82%
Aromatic Petroleum Hydrocarbon	
Petroleum Distillate	
INERT INGREDIENTS	0.21%
·	100 00%

*O.O-Dimethyl dithiophosphate of diethyl mercaptosuccinate

EPA Reg. No. 6796-14

CAUTION: KEEP OUT OF REACH OF CHILDREN HARMFUL IF SWALLOWED

See Side Panel for Additional Cautions

NET CONTENTS 55 GALLONS

Manufactured for:

BLUE RIDGE OIL COMPANY Garfield, N. J. 07026

DIRECTIONS

Thermal fog machines produce extremely fine spray particles which hang over the ground, penetrating the areas occupied by applications. Thermal fogging with this concentrate will kill addition contact.

For outdoor area control of adult mosquitoes and similar small flying insects, envelop the area to be treated in a fine fog applicate at the rate of 0.275 gallons per acre. This rate per acre will be achieved by a vehicle moving at 5 miles per hour with an applicator covering a 300 foot swath and delivering 50 gallons per hour.

Avoid over-spraying of ornamental and native plants to minimize the phytotoxicity of the oil carrier. Do not exceed 0.75 galans per acre.

For best results, thermal fogging should be done during the content hours of the night or early morning and when the wind is not in excess of 3 miles per hour. Timing should coincide with the greatest mosquito activity. Repeat as necessary.

THROUGH THE SKIN. Malathion is a cholinesterase inhibitor. Note to Physicians: Atropine is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing. Store away from children and domestic animals. Avoid contact with feed and foodstuffs. In case of contact, wash with soap and water: for eyes get medical attention. KEEP CONTAINER CLOSED.

DO NOT POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAWE

This product is toxic to fish. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of waste. Do not re-use empty container. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place. "This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service."

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
