LONZA Inc.  
17-17 Route 208  
Fair Lawn, NJ 07410

Attention: Eliot I. Harrison  
Agent for Lonza

Subject: Bio-guard SL25 Hospital Spray  
Disinfectant & Deodorant  
EPA Registration No. 6836-176  
MOU Compliance Amendment dated February 21, 1995

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, will be acceptable provided that you make the labeling change listed below before you release the product for shipment bearing the amended label.

1. Change Trichophyton interdigitale to Trichophyton mentagrophytes.

A stamped copy of your labeling is enclosed for your records. Submit five (5) copies of the final printed label prior to release of the product for shipment.

If you have any questions concerning this letter, please contact Wanda Mitchell at (703) 305-6141.

Sincerely,

Marion J. Johnson, Jr.  
Product Manager (31)  
Antimicrobial Program Branch  
Registration Division (7505C)

**KILLS ODORS.** Spray in the air to eliminate cooking, bathroom and smoke odors. Leaves a fresh lemon scent.

BIOGUARD SL-25 kills may germs that can cause odors. When used as a surface disinfectant, BIOGUARD SL-25 kills odor-causing germs in empty garbage cans, diaper pails, sick rooms, pet areas, places where odor causing germs are a problem.

**WARNING:** Avoid contact with food and food utensils. Avoid spraying in eyes. If eye contact occurs, flush with water. Minimize inhalation.

Flammable. Contents under pressure. Keep away from heat, sparks or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**Environmental Hazards**

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product in sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**ACCEPTED**  
with **COMMENTS**  
in EPA Letter Dated:

**JUN 21 1995**

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended, for the pesticide  
registered under EPA Reg. No.

6836-176

BIOGUARD SL-25 Hospital Spray Disinfectant kills Influenza A<sub>2</sub> virus, Herpes Simplex Virus Type 2, deadly Staphylococci, Streptococci, Salmonella, Trichophyton interdigitale (athlete's foot fungus) and other germs on environmental surfaces.

Spray regularly to eliminate most germs from bedsteads, bed springs, bed rails, bedside tables, bathroom basins, toilet seats, shower stalls, bathtubs, telephones, door handles, light switches, plumbing and plumbing fixtures, window blinds, empty hampers, waste receptacles, sills, walls, closets, places where germs may be a problem. The aerosol spray penetrates areas hard to reach with non-propelled liquid disinfectants.

**PREVENTS MOLD AND MILDEW.**

Use in basements, closets, laundry rooms, summer cottages, boats, storage areas, shower stalls. Excellent for preventing mold and mildew on mattresses, pillows, shower curtains, painted surfaces, tiled walls, curtains and similar surfaces. For mildew control follow directions for disinfection. Application should be repeated once a week or when new growth appears on hard surfaces.

**DIRECTIONS**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Surface should be cleaned prior to application.

TO DISINFECT, hold can upright, 6" to 8" from surface. Spray surface 2 to 3 seconds or until covered with fine mist. Let dry on surface. Avoid spraying lacquered or shellacked surfaces.

TO DEODORIZE, hold can upright and spray into center of room 1 to 2 seconds.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**STORAGE:** Store in a cool area.

**DISPOSAL:** Replace cap on empty container and discard in trash.
