CAUTION! **KEEP OUT OF REACH OF CHILDREN**

This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes.

Harmful if swallowed. Ab-O-Cide is a combustible mixture and should not be sprayed into, or near, an open flame. All pilot lights should be off while spraying. Avoid contamination of food and food stuffs. Do not spray into, or on, food or food materials.

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation. E.P.A. Reg. No. 6913-22

Ab-O-Cide is a high kill contact insecticide for wholesale growers, supermarkets, bakeries, dairies, bottling plants, packing plants, breweries, mills and other establishments where food is processed or stored. When used as directed, this product will kill accessible weevils, flour moth, silverfish, moths, house flies, gnats, and fruit flies.

DIRECTIONS

Areas to be sprayed should be thoroughly cleaned by removing accumulations from all cracks, shelves, beams and on and around packages of stored food products. Close doors and windows and keep closed for 15 to 20 minutes after spraying. Sweep up and dispose of fallen insects. Before treating, vacate the area and ventilate it after treatment.

When to Spray: Spray Ab-O-Cide into the air in the form of a fine mist to help control flies and gnats. Spray under and around all equipment and racks in all cracks, corners and crevices on floors, walls and ceilings to control the listed insect.

When to Spray: Ab-O-Cide should be sprayed once or twice a week on a regular procedure and daily in cases of severe infestations.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.
