

# ACCEPTED Turf Fungicide 50W

14 JUL 1975

contains **DYRENE**

Manufactured by Shell Chemicals, Inc., P.O. Box 1000, Houston, Texas 77240

**ACTIVE INGREDIENT:**

4-(2-Dimethylaminoethyl)pyrimidin-5(1H)-one..... 50%

**INERT INGREDIENTS:**

**TOTAL 100%**

DYRENE is a registered trademark of M. W. Chemical Corporation.

**EPA Reg. No. 7001-212-AA  
EPA Est. No. 7001-CA-1**

Turf Fungicide 50W is a water-soluble formulation of Dyrene for use on lawns and turf. Its broad spectrum of activity controls turf diseases such as brown patch, dollar spot, and snow mold. It provides very good suspension stability and is suitable for use in a wide range of spray equipment. Turf Fungicide 50W is formulated for use in backpack sprayers, pump sprayers, and mist blower sprayers. For a preventive program, apply at the rate of 1.0 lb. active ingredient per 1,000 sq. ft. of lawn area. For curative control, apply at the rate of 2.0 lb. active ingredient per 1,000 sq. ft. of lawn area. Use the following directions for application:

- 1. Apply Turf Fungicide 50W to lawns and turf at the rate of 1.0 lb. active ingredient per 1,000 sq. ft. of lawn area for preventive control.
- 2. Apply Turf Fungicide 50W to lawns and turf at the rate of 2.0 lb. active ingredient per 1,000 sq. ft. of lawn area for curative control.
- 3. Apply Turf Fungicide 50W to lawns and turf at the rate of 1.0 lb. active ingredient per 1,000 sq. ft. of lawn area for preventive control and 2.0 lb. active ingredient per 1,000 sq. ft. of lawn area for curative control.

**DIRECTIONS FOR USE**

Apply Turf Fungicide 50W to lawns and turf at the rate of 1.0 lb. active ingredient per 1,000 sq. ft. of lawn area for preventive control and 2.0 lb. active ingredient per 1,000 sq. ft. of lawn area for curative control. Apply Turf Fungicide 50W to lawns and turf at the rate of 1.0 lb. active ingredient per 1,000 sq. ft. of lawn area for preventive control and 2.0 lb. active ingredient per 1,000 sq. ft. of lawn area for curative control. Apply Turf Fungicide 50W to lawns and turf at the rate of 1.0 lb. active ingredient per 1,000 sq. ft. of lawn area for preventive control and 2.0 lb. active ingredient per 1,000 sq. ft. of lawn area for curative control.

**RECOMMENDED APPLICATIONS**

**Lawns & Turf:** Brown Patch, Copper Spot, Dollar Spot, Leaf Spot, Melting-Out, Rust, Snow Mold, Typhula, etc. Apply specified dosage in 5 gallons of water per 1,000 square feet. Repeat at 1 to 2 week intervals throughout the spring and summer months. For control of Snow Mold, Typhula, apply at lower specified rate after the first killing frost in the fall. A second application should be made when the lawn is free of snow in mid-winter, and this should be followed by a third application after the first melting of snow in late winter or early spring.

**Container & Waste Disposal:**

Rinse equipment and dispose of waste by burying in non-croplands away from water supply. Dispose of container by burying with wastes or burning, keeping out of smoke. Never reuse container.

**CAUTION!**

**KEEP OUT OF REACH OF CHILDREN**

Caution: May be harmful if swallowed. Avoid contact with eyes, skin, or clothing. Avoid breathing dust or spray. Wash thoroughly with soap and water after use. Wash contaminated clothing with soap and water before reuse.

Do not contaminate water, food, or feed. Do not apply when weather conditions are unfavorable. Avoid contact with water. Do not use in residential areas. Do not use in waterways or near drinking water supplies. Do not use in areas where water is used for drinking or food preparation.

Do not use in areas where water is used for drinking or food preparation. Do not use in areas where water is used for drinking or food preparation. Do not use in areas where water is used for drinking or food preparation. Do not use in areas where water is used for drinking or food preparation.
