

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
STORAGE: Do not expose to extreme temperatures. Do not stack more than five drums high. Drums should be stored in well-ventilated areas. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use. Do not store near fertilizers, seeds, insecticides, or fungicides.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at your EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then either for recycling or reconditioning, or pasture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

This product may be applied at any time of the year, EXCEPT when ground is frozen. Best results are obtained after vegetation has emerged, in late spring or early summer. Use power sprayers, compressed air hand sprayers, or an ordinary sprinkling can. No dilution or agitation is required.

Uniformly spray 2½-3 gallons per 1,000 sq. ft. of soil surface, (100-120 gal. per acre). Thoroughly wet all foliage to insure contact action. Where vegetation is tall and dense, use 5 gallons per 1,000 sq. ft. (200 gal. per acre). For control of hard-to-kill perennial weeds and grasses, such as Johnsongrass, Bindweed, and Wild Carrot, use 8-12 gallons per 1,000 sq. ft. Although this herbicide has considerable activity through foliage contact, much of its activity is through the roots and, therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

NOTICE

Since weather and other conditions under which this product may be used will vary, the Seller makes no warranty, of any kind, express or implied concerning the use of this product. The user assumes all risk of use or handling not in accordance with directions or suggestions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION

Keep out of reach of children.
Harmful if swallowed. If swallowed,
vomiting.

Avoid contact with eyes and skin.
In case of contact, wash with soap and water.
Avoid inhalation of spray mist.

ENVIRONMENTAL HAZARDS

Avoid contamination of food and feed.
Do not contaminate water used for irrigation
or domestic purposes.
Do not apply directly to water. Do not contaminate
water by cleaning of equipment, or disposal of
wastes. Apply this product only as specified
on this label.

This product is toxic to fish and wildlife. Birds
and other wildlife in treated areas may be
killed. Do not apply when weather conditions
favor drift from areas treated. Apply this
product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, split or store near heat or open
flame.
Store at temperatures above 32° F.
