Mr. Edward Piranian
Safeguard Chemical Corp.
411 Wales Avenue
Bronx, New York 10454

Dear Mr. Piranian:

Subject: Label Revision
Black Jack Home & Garden #II
EPA Reg. No. 8848-38
Submission: November 5, 1993

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

- 1) The following or a similar Statement of Practical Treatment section must be added to the labeling immediately following the ingredient statement.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately.

IF ON SKIN

OR CLOTHING: Remove contaminated clothing and wash before reuse. Wash skin with soap and warm water. Get medical attention if irritation persists.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

- 2) The following physical or chemical hazard statement must be included on the label.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

- 3) The following precautionary statement must be added on the side/back panel.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed. Avoid inhalation of vapors. Avoid contact with skin, eyes, or clothing. Get medical attention if irritation persists. Avoid contamination of food and feedstuffs. Do not use in commercial food processing, preparation, serving, or storage areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Remove pets, birds, and cover fish aquariums before spraying.

- 4) All sites must be specified on the label. Please indicate specific sites, (i.e. homes, apartments, etc...)

If you have any questions regarding this letter, please call Bob Brennis at 703-305-6788.

Sincerely,

Adam Heyward
Acting Product Manager 10
Insecticide & Rodenticide Branch
Registration Division (7505C)

**BLACK JACK
HOME & GARDEN
#II MULTI-PURPOSE
INSECT SPRAY**

ACTIVE INGREDIENTS:

Tetramethrin [(1-Cyclohexene-1,2-dicarboximide) methyl 2,2-dimethyl-3-(2-methyl-propenyl cyclopropane carboxylate.....	0.200%
*3-Phenoxybenzyl d-cis and trans**2,2-dimethyl-3- (2-methylpropenyl)cyclopropane carboxylate.....	0.191%
*Other isomers.....	0.009%
***INERT INGREDIENTS.....	99.600%
TOTAL	100.000%

*d-(cis, trans) Phenothrin

**cis/trans isomer ratio: Max. 25% (+ or -) cis
Min. 75% (+ or -) trans

***Contains Petroleum Distillate

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Back Panel For Additional Precautionary Statements.

Net Wt. 10 Oz. (283 g)

ACCEPTED
with COMMENTS
in EPA Letter Dated

08 DEC 1993

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
amended, for the pesticide
registered under EPA Reg. No.

8848-38

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INDOORS: TO KILL HOUSEFLIES, MOSQUITOES, SMALL FLYING MOTHS, GNATS AND WASPS: Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and destroy fallen insects.

TO KILL COCKROACHES, ANTS AND CRICKETS: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry. Repeat as necessary.

TO KILL CARPET BEETLES: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary.

TO KILL EXPOSED FORMS OF CONFUSED FLOUR BEETLES, SAW-TOOTHED GRAIN BEETLES, AND RICE WEEVILS: Find and destroy infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Repeat as necessary.

TO KILL SOWBUGS, CENTIPEDES, FIREBRATS AND SPIDERS: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators.

TO KILL FLEAS AND BROWN DOG TICKS: Remove and destroy pet's old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local areas of floors. Repeat as necessary. Do not spray animals. Put fresh bedding in pet's quarters after spray has dried. Also treat dogs and cats with a registered flea and tick control product before allowing them to enter treated area.

OUTDOORS: TO REDUCE THE ANNOYANCE OF HOUSEFLIES, MOSQUITOES, GNATS AND SMALL FLYING MOTHS: Spray area infested with these flying insects. Hold container 18-24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these pests, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

TO KILL ORNAMENTAL PLANT PESTS LISTED BELOW: When sprayed directly on insects, this spray will kill the insects listed. Caution should be taken when spraying new tender growth on young plants.

WHEN SPRAYING, HOLD CAN 18-24 INCHES FROM PLANT

For best results, spray in the evening or on a cloudy day when air is still. Mist the plants lightly. Use a slow sweeping motion. Avoid wetting foliage with spray. Spray rows at a rate of 1 foot per second. For heavy growth, spray both sides of row. Repeat as needed. Do not spray when temperatures exceed 90 degrees Fahrenheit.
