UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

Safeguard Chemical Corporation.  
c/o Ms. Kim Davis  
RegWest Company, LLC  
8203 West 20<sup>th</sup> Street, Suite A  
Greeley, CO 80634-4696

APR - 7 2011

Dear Ms. Davis:

Subject: Amendment: Update per me-too label and PR Notice 2007-4  
Black Jack D-200 Insect Killer  
EPA Reg. No. 8848-71  
Your submission dated February 21, 2011

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) section 3(c)(7)(a), is acceptable provided the following revisions are made prior to release for shipment under the amended labeling:

- 1) On pages 2 and 4, delete the open-ended term "but are not limited to" that appears at the beginning of lists of sites.

A stamped copy of the label is enclosed for your records. Please submit two copies of the revised amended labeling prior to release for shipment.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions regarding this letter, please contact Dana Pilitt, PhD of my staff at (703) 305-7071 or via e-mail at [pilitt.dana@epa.gov](mailto:pilitt.dana@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Suarez".

Mark Suarez  
Product Manager 13  
Insecticide Branch  
Registration Division (7505P)

### First Aid

<b>If Swallowed:</b>	<ul style="list-style-type: none"> <li>• Immediately call a poison control center or doctor for treatment advice.</li> <li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li> <li>• Do not give <b>any</b> liquid to the person.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<p>Have the product container or label with you when calling a poison control center or doctor or going for treatment. In case of medical emergencies or health and safety inquires or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-222-1222.</p>	
<p><b>Note to Physician:</b> Contains petroleum distillate – vomiting may cause aspiration pneumonia.</p>	

*{Note: The First Aid statements' grid format will be used if market space permits; otherwise a paragraph format will be used.}*

## PRECAUTIONARY STATEMENTS

### Hazard to Humans and Domestic Animals

**CAUTION:** Harmful if swallowed. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

### Environmental Hazards

This product is toxic to fish and other aquatic organisms. Do not apply directly to water. This product is toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

### Physical or Chemical Hazards

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product in or on electrical equipment due to the possibility due to the possibility of shock hazard.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Black Jack D-200 Insect Killer [This product] has residual action which keeps on killing **German Cockroaches** and **Houseflies** for up to 12 weeks (3 months) after you spray.

Remove pets, birds and cover fish aquariums before spraying. Prevent re-entry of dogs and cats into treated area until spray deposits are dry.

Test product in an inconspicuous area before applying to fabric items. Spray until surface is slightly wet, but not to the point of run-off. Over-application may cause damage. Black Jack D-200 Insect Killer [This product] will not stain surfaces or fabrics where water alone causes no damage.

**Shake Well Before Each Use.** Hold container upright. Do not spray up into air. Apply only to surfaces. [Remove protective cap and direct spray away from face.] [Twist and snap off tab before spraying. Direct spray away from face.] Hold can 12-15 inches from surface being sprayed. Press button down and spray as directed.

Black Jack D-200 Insect Killer [This product] is intended for use in and around residential structures and their immediate surroundings. Permitted areas of use include, but are not limited to: apartments, atriums, attics, automobiles, basements, bathrooms, boats, cabins, campers, carports, cat sleeping quarters, clothes storage, condominiums, decks, dens, driveways, garages, gazebos, homes, kitchens, lanais, living rooms, parlors, patios, pet sleeping areas, play rooms, porches, recreational vehicles, rooms, solariums, storage areas, sun rooms, utility rooms and verandas.

Application is prohibited directly into sewers, drains or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

### Indoors

**Ants:** Spray ant trails and around door and windows and other places where ants enter the house. Repeat as necessary but not more than once per week.

**Carpenter Ants:** For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

**Carpet Beetles (Black, Furniture and Varied):** Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found.

**Centipedes, Ground Beetles, Pillbugs, Sowbugs, Scorpions and Ticks:** Apply around doors and windows and other places where these pests may enter premises. Treat baseboards, storage areas and other locations where these pests are found.

**Cockroaches** (includes adult and immature stages of both non-resistant and organophosphate- and carbamate-resistant strains) **Ants, Booklice, Boxelder Bugs, Centipedes, Crickets, Dermestids, Firebrats, Fleas, Palmetto Bugs, Silverfish, Sowbugs, Ticks and Waterbugs:** Apply as a spot and crack-and-crevice treatment to areas where these pests crawl and hide, especially in hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases and similar areas. When pests are driven out, spray directly. Cover all food handling surfaces

4

and cover or remove all food and cooking utensils or wash thoroughly after treatment. Cover or remove exposed food. Repeat as necessary but not more than once per week.

[**Roaches:** Spray in cracks-and-crevices, around baseboards and other hiding places until wet. When driven out, spray bugs directly.]

**Pantry Pests: Grain Beetles (Rusty, Merchant and Saw-toothed), Flour Beetles (Red and Confused), Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Elmleaf Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles and Tobacco Moths:** Treat exposed stages. Remove all food-stuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and cracks-and-crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food and utensils. Wash any exposed food handling surfaces and utensils before use.

**Spiders:** Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

[**Silverfish, Crickets, Spiders:** Apply to areas infested by these pests (around doors and windows, along baseboards, in storage areas and other locations where these pests are found) or spray pests directly. Spray surfaces until wet.]

**Ticks and Fleas on Surfaces:** Remove pet bedding and destroy or thoroughly clean. Spray pet resting quarters. Adult fleas and larvae contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, treat pets with a flea and tick control product registered for use on pets before allowing them to return to the treated area. Spray rugs and carpets where infestations are bad; test first for staining on an inconspicuous place prior to use.

**Webbing Clothes Moths:** Use this product as a crack-and-crevice treatment in closets and other storage areas where these pests are found. This is an adjunct treatment and will not control moth larvae already on clothes. Do not apply to clothing.

### Outdoors

Remove all exposed food and cooking utensils. Cover all food handling surfaces or thoroughly wash after treatment and before use. Do not use on edible crops.

Do not contaminate fish ponds or apply directly to water. Do not water the treated area to the point of run-off. Do not make applications during rain. All outdoor applications must be limited to only spot or crack-and-crevice treatments, except for the following permitted uses:

1. Treatment to soil or vegetation around structures;
2. Applications to lawns, turf and other vegetation;
3. Applications to building foundations, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to only spot and crack-and-crevice applications.

Point nozzle away from face. Hold can on a slight downward angle, approximately 12-15 inches from surface to be sprayed. For best results, spray when air is calm. Spray with wind if breeze is blowing.

### Pests on Outside Surfaces of Buildings:

For control of building infestations of **Ants, Clover Mites, Crickets and Sowbugs (Pillbugs):** Spray foundation of building up to a height of 2-3 feet where insects are active and may find entrance. Apply as a residual spray to

5  
7

outside surfaces of buildings where insects tend to congregate. Spray areas include (but are not limited to) screens, window frames, eaves, porches, patios, garages and refuse dumps. Repeat treatment as necessary but not more than once per week.

**Crawling Insects: Ants, Centipedes, Cockroaches (including Asian Cockroaches), Crickets, Mole Crickets and Silverfish:** Hold can 12-18 inches from surface to be treated and spray infested surface of patio or picnic area, hitting as many insects as possible. Spray to slightly moisten the surface. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

**Ants:** Spray freely around ant trails and hills. Spray around nests hidden under steps, brickwork, concrete, etc. Break apart accessible nests and spray on and around debris until slightly wet. Repeat as necessary but not more than once per week.

[**Ants:** Spray around ant trails and hills. If nest can be located, spray surface of nest until wet.]

**Fire Ants:** To quiet active ants on the surface, sweep surface with spray from a distance of 18 inches. For best results, apply in cool weather or in early morning or late evening hours. Treat new mounds as they appear.

**Crickets, Dog Ticks, Earwigs, Fleas and Lone Star Ticks:** Thoroughly apply to infestations in bushes, grass or weeds.

**Bees, Hornets and Wasps:** Spray nests and bees directly. Aim spray at nest openings. Apply in late evening when insects are at rest.

**Flying Insects: Gnats, Houseflies, Mosquitoes and Small Flying Moths:** Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray localized resting areas, such as under eaves, porches, surfaces around light fixtures and cords, railings, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed.

**For the control of Garden Insects: To kill Aphids, Armyworms, Clover Mites, Exposed Thrips, Japanese Beetles, Lace Bugs, Leafminers, Pavement Ants, Red Mites, Spider Mites and Whiteflies:** Using a sweeping motion from a distance of at least 18 inches, directly spray insects whenever possible on African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, crassula, dahlias, delphiniums, dogwood, English ivy, euonymus, fuchsia, geraniums, grape vine, Kentia palm, laurel, marigolds, rhododendrons, roses, rubber plants, snapdragons, stocks, wandering Jews, zinnias and other ornamentals. Spray in 1 second bursts and be cautious about wetting tender foliage, young plants and new growth. Over-application may cause damage. Do not spray plants when temperature exceeds 90°F (32°C). Reapply if reinfestation occurs, but not more than once every week. Spray may be used on plants, as well as a multi-purpose spray in small gardens, and for spot treatments of incipient insect infestations to prevent spreading to large garden areas.

#### **Storage and Disposal**

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in a cool, dry area away from [inaccessible to] children and pets and away from heat, sparks and open flame. Protect from freezing. [Do not freeze.] [Do not transport or store below 32°F.]

**Pesticide/Container Disposal:** Non-refillable container; do not reuse or refill this container. Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. [This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label.] **If partly filled:** Call your local solid waste agency [or 1-800-222-1222] for disposal instructions.

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}

7

**Important: Read Before Use**

By using this product, user or buyer accepts the following conditions and limitations of liability.

**Conditions:** To the extent permitted by applicable law, buyer assumes all responsibility for safety and use not in accordance with directions, because of manner of use and other factors beyond Safeguard Chemical's control.

**Limitations of Liability:** To the Extent Permitted by Applicable Law, the Exclusive Remedy of the User or Buyer for any and All Losses, Injuries or Damages Resulting from the Use or Handling of this Product, Whether in Contract, Warranty, Tort, Negligence, Strict Liability or Otherwise, Shall Not Exceed the Purchase Price Paid, or at Safeguard Chemical's Selection, the Replacement of Product.

{Enlargement:  
No CFCs.

Contains no CFCs which deplete the ozone layer.  
Federal regulations prohibit CFC propellants in aerosols.}
