Cockroaches: To control cockroaches, spray or dust along baseboards, around doors and windows, and in corners of rooms and closets. Spray along crevices in walls, baseboards, under door and window sills and molding, along the beneath sinks, stoves, radiators, in cabinets and around garbage cans, water tanks and other utility installations. Plastic containers of racing; pieces should be sprayed thoroughly. For ants apply to ant trails and around doors and windows and wherever cockroach nests may find entrance.

Brown Dog Ticks: To control these pests, thoroughly spray as a spot treatment to infested areas such as pet beds and resting quarters. Spray along crevices, along and between baseboards, floor and door frames and underneath areas of floor and floor covering where ticks usually be present. Old bedding or sets should be removed and replaced with clean, fresh bedding after treatment. Do not spray pets with this product.

Fleas and Lice: Use only outdoors as an aid in reducing annoyance from these insects. Spray only on surfaces of windows and door frames as well as other areas where these pests may usually be found. Also spray carpeted areas and rest areas (such as upholstered furniture, chairs and garages). These products will not irritate flies and mosquitoes cannot live on treated surfaces. Be sure to follow directions when effectiveness guaranteed.

Use as a surface spray only as specified on this label.

Do not allow product to contact food, utensils or containers used to wash dishes or food preparation areas. If contaminated with this product,
