Ms. Michelle Bell  
The Andersons Lawn Fertilizer Division  
DBA Free Flow Fertilizer  
P.O. Box 119  
Maumee, Oh 43537

Dear Ms. Bell:

Subject: The Andersons Fertilizer with 0.27% Tean/0.58% Dursban  
EPA Registration No. 9195-102  
Application Dated December 30, 1994, Request To  
Amend Labeling by Adding WPS Exclusionary Statement  
and Using Split Labeling

The proposed labeling submitted with your application  
dated March 25, 1994, has been reviewed and found acceptable  
under the Federal Insecticide, Fungicide and Rodenticide  
Act (FIFRA) as amended, provided that:

1. Add the same exclusionary statement to the "Homeowner  
Use Only" labeling as the one you added to the "Commercial  
Use Only" labeling submitted with this application.
2. Submit one (1) copy of the final printed labels before  
releasing the product for shipment under the subject  
labeling.

If these conditions are not complied with, the registration  
will be subject to cancellation in accordance with FIFRA,  
Section 6(e). Your release for shipment of the product  
constitutes acceptance of these conditions.

A stamped copies of the labeling are enclosed for your records.

Sincerely yours,

**BEST AVAILABLE COPY**

HOMEOWNER USE ONLY

**STATEMENT OF PRACTICAL TREATMENT**

- IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Call a physician.
- IF SWALLOWED: Call a physician or Poison Control Center. Drink one or two glasses of water and induce vomiting by touching finger to the back of throat. Never give anything by mouth to an unconscious or convulsing person.
- IF ON SKIN: Wash with soap and plenty of water. Get medical attention if irritation persists.
- IF INHALED: If breathing difficulty occurs, move individual to fresh air and get medical attention.
- NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote by injection only.

**ENVIRONMENTAL HAZARDS**

This pesticide is extremely toxic to fish, birds, and other wildlife. Do not apply to water. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent aquatic sites. Cover or incorporate spills. Do not contaminate water when cleaning of equipment washwaters.

**DIRECTIONS FOR USE**

It is in violation of Federal law to use this product in a manner inconsistent with its labeling.

The Andersons Fertilizer With 0.87% Team/0.58% Dursban is a combination of growth promoting fertilizer ingredients, a preemergent herbicide, and a turf insecticide. It is designed to control smooth and hairy crabgrass, goosegrass (silver crabgrass or crowfoot), barnyard grass (watergrass), green and yellow foxtail, and annual bluegrass (Poa Annua), as well as ants, armyworms, billbugs, brown dog ticks, chinch bugs, crickets, cutworms, earwigs, grasshoppers, and sod webworms.

When applied as directed, the product can be used on the following turfs: Kentucky Bluegrass, perennial ryegrasses, centipedegrass, fescue, zoysiagrass, bermudagrass, St. Augustinegrass, and bahiagrass. The product will not harm nearby established ornamental trees and shrubs.

(BACK PANEL)

HOMEOWNER USE ONLY

#### APPLICATION DIRECTIONS

For preemergence weed control and early insect control, apply 4 pounds per thousand square feet in the spring one to two weeks prior to the onset of conditions favorable for annual weed grass seed germination. A second application should be made eight to ten weeks after the first to provide season control of these annual grass species and to provide a second insect kill.

#### USE PRECAUTIONS

Apply The Andersons Fertilizer with 0.87% Team/0.58% Dursban to the turf prior to the germination of weed grasses since The Andersons Fertilizer With 0.87% Team/0.58% Dursban will not control established weeds. The Andersons Fertilizer With 0.87% Team/0.58% Dursban should not be applied in the spring to turfgrass planted the previous fall. In bermudagrass areas that have been overseeded with winter grasses, a spring application of The Andersons Fertilizer With 0.87% Team/0.58% Dursban should not be used on putting greens. The Andersons Fertilizer With 0.87% Team/0.58% Dursban should not be used on dichondra. The Andersons Fertilizer With 0.87% Team/0.58% Dursban should not be applied to newly sprigged areas of bermudagrass, St. Augustinegrass or Centipede grass until these turfs are well established.

#### RESEEDING

Chemicals that effectively control annual weed seeds may also affect new desirable turfgrass seedlings. Reseeding should be delayed for at least 6 weeks after applying The Andersons Fertilizer With 0.87% Team/0.58% Dursban. When reseeding, it is essential that proper cultural practices such as soil cultivation, irrigation and fertilization be followed. For satisfactory reseeding results after using The Andersons Fertilizer With 0.87% Team/0.58% Dursban the amount of seed used should be increased and equipment designed to place seed in contact with the soil (such as Rogers Aero Seeder) should be employed. When using The Andersons Fertilizer With 0.87% Team/0.58% Dursban reseeding should be delayed 12 to 16 weeks after application.

#### SUGGESTED SPREADER SETTINGS

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. Keep container closed and away from food, feedstuffs and domestic water supplies. **PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse bag. Discard bag in trash.

WARRANTY

MANUFACTURER warrants that this product (1) conforms to the ingredient statement on the label and (2) is reasonably fit for the purposes set forth in the Directions for Use. EXCEPT AS SO WARRANTED, THE PRODUCT IS SOLD AS IS. MANUFACTURER MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.

The manufacturer's directions regarding use of this product are based upon tests believed to be reliable. All statements made concerning this product apply only when used as directed, under normal use conditions. FOLLOW DIRECTIONS CAREFULLY. Timing and method of application, weather and turf conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the manufacturer.

IF INHALED: If breathing difficulty occurs, move individual to fresh air and get medical attention.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote by injection only.

#### ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish, birds, and other wildlife. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent aquatic sites. Cover or incorporate spills. Do not contaminate water when cleaning or equipment washwaters.

#### DIRECTIONS FOR USE

It is in violation of Federal law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

The Andersons Fertilizer With 0.87% Team/0.58% Dursban is a combination of growth promoting fertilizer ingredients, a preemergent herbicide, and a turf insecticide. It is designed to control smooth and hairy crabgrass, goosegrass (silver crabgrass or crowfoot), barnyard grass (watergrass), green and yellow foxtail, and annual bluegrass (Poa Annuua), as well as ants, armyworms, billbugs, brown dog ticks, chinch bugs, crickets, cutworms, earwigs, grasshoppers, and sod webworms.

**SUGGESTED SPREADER SETTINGS**

(This section will be completed for final labeling)

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal. Keep container closed and away from food, feedstuffs, and domestic water supplies. **PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate, is a violation of Federal Law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State or local authorities, by burning. If burned, stay out of smoke.
