DIRECTIONS FOR USE CONTINUED

Do not use as a space spray. For spot treatment only. Spray infested surfaces until wet.

FOOD HANDLING ESTABLISHMENTS — Places other than private residences in which exposed food is held, processed, prepared or served.

NON-FOOD AREAS — Includes garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

To Kill: Cockroaches - Ants - Silverfish - Spiders - Crickets — Spray areas where these pests are found or may hide, including dark corners of rooms and closets, cracks, crevices, along baseboards, and door sills and frames, behind and beneath sinks, stoves, refrigerators, cabinets and around garbage cans, plumbing and other utility installations. Pests flushed out of hiding should be sprayed directly. Treat ant trails, nests and points of entry. Repeat treatment as necessary. **To Kill: Carpet Beetles** - Spray edges of carpeting and under carpeting and rugs. Make localized application to the floor and baseboards. Spray directly into cracks, closets and infested areas of shelving. Repeat as necessary. **To Kill: Brown Dog Ticks, Indoors** - Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor covering. Applications should be repeated as infestations warrant and as reinfestation occurs. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation. **To Kill: Flies - Mosquitoes - Small Flying Moths - Wasps** - For outdoor use only as an aid in reducing annoyance from these pests. Spray outside surfaces of the room. Also treat surfaces around light fixtures or porches, in garages and other places where these insects alight or congregate. **To Kill: Fleas - Chiggers - Ants (Outdoors)** - For treatment of localized infestation of these insects in outdoor areas, spray weeds and bushy non-crop areas around the home thoroughly. Avoid spraying desirable plants. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as reinfestations occur.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
