

WARNING

Keep out of reach of children.
Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIANS:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

This product is toxic to fish. Treated effluent should not be discarded where it will drain into lakes, streams, or ponds.

When POOL-A-CIDE "440" is used according to recommended dilutions, it is non-corrosive to pools and pool equipment. The pool may be used by swimmers immediately after treatment.

POOL-A-CIDE "440" CONCENTRATE

Kills & prevents algae

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides	20%
n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides	20%
INERT INGREDIENTS	60%

WARNING: KEEP OUT OF REACH OF CHILDREN

See back/side panel for additional warnings

NET CONTENTS 1 QUART (32 FL. OZ.)

DIRECTIONS

When POOL-A-CIDE "440" Concentrate is used as directed, it will kill and prevent development of green, blue-green, Square D, and black algae in swimming pools. Use for prevention of algae growth in clear pool water when you fill the pool or when algae growth is first visible.

1. INITIAL DOSE TO A CLEAN POOL:

Use 6 ounces of POOL-A-CIDE "440" Concentrate for each 10,000 gallons of water as the first treatment and maintain recommended chlorine residual.

2. INITIAL DOSE TO POOL WHEN ALGAE IS FIRST VISIBLE:

Use 8 ounces of POOL-A-CIDE "440" per 10,000 gallons of water as the first treatment. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dosage.

3. MAINTENANCE DOSE:

Use 2 ounces per 10,000 gallons of water every 3 to 5 days to maintain strength while also maintaining recommended chlorine residual. Shorten the interval when temperature is high or for heavy pool use.

APPLICATION: Mix the required amount of POOL-A-CIDE "440" into a bucket of water. Distribute this solution uniformly throughout the pool water being careful to avoid spillage or splashing. DO NOT MIX WITH OTHER CHEMICALS. Rinse empty container thoroughly with water and discard in a safe place.
