MICROBIOCIDES

E. A. EST. NO. 9640-MI-1

FOR MICROBIOLOGICAL CONTROL IN RECIRCULATING WATER SYSTEMS

Active Ingredients:

Potassium dimethyldithiocarbamate

20.0%

Inert Ingredients:

80.0%

Weight per gallon

9.05 lbs.

Active ingredients per gallon

1.81 lbs.

ACCEPTED

MAY 05 1986

This pesticide,
Potassium dimethyldithiocarbamate, is registered under
EPA Reg. No. 9640-29

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is used in cooling water systems and industrial air-washing systems to control microbiological slime. In cooling systems, add 2.9 to 8.6 fluid ounces of product per 1,000 gallons of water to the cooling tower sump. In air-washing systems, add 10.0 to 17.2 fluid ounces of product per 1,000 gallons of water to water collection trays. Repeat treatments every 1 to 5 days, or as needed. The required frequency depends on relative amount of bleed and severity of slime problem.

WARNING

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonsful (10 ml) of ipecac syrup or 1 teaspoonful (5 ml) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other nonoily demulcent. Never induce vomiting or give anything by mouth to an unconscious person. Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. **Storage:** Store in original container only, protected from excessive heat and freezing. Keep container closed when not in use. Isolate any leaking or damaged containers in overpack drums. **Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the hazardous waste representative at the nearest EPA Regional Office for guidance. Do not reuse container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
