Subject: Label Amendment
Chemsico Herbicide Concentrate DFC (Alternate II)
EPA Reg. No. 9688-206
Application Dated May 5, 2009

Dear Mr. Metzger:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable, provided you make the following changes before you release the product for shipment.

1. Remove the following claim from the product label as it implies the product possesses special qualities due to its 'unique' composition, which is false and misleading:
"Exclusive Formula"
2. Remove the following claims from the product label or submit environmental fate studies for their support:
"No Residual Activity in Soil"
"No Soil Activity"
3. Remove the following claims from the product label as they are overly broad:
"Kills Weeds and unwanted Grasses, Roots **And All.**"
"Kills **All** Treated Weeds"
4. Remove the following 'brand vs. brand' marketing claims from the product label.
"Faster Results than the Leading Brand"
"Not Even the Leading Brand [Is Faster] [Is As Fast]"
"[In Half The Time Of Other Brands]"

EPA Reg. No. 9688-206
Label Amendment May 5, 2009

5. Per the Label Review Manuel, revise all "Pesticide Disposal" subheadings to read **"Pesticide Disposal and Container Handling."**

A stamped copy of your labeling is enclosed for your records. You must submit one (1) copy of the final printed label before you release the product for shipment. Products shipped after 12 months from the date of this letter or the next printing of the label whichever occurs first, must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions. Amended labeling will supercede all previously accepted ones.

Sincerely,

Joanne Miller

[HOW TO APPLY]

[WHERE TO USE] [USE SITES] [USE SITUATIONS]:

GENERAL WEED CONTROL: Use along [near] fences, paths, patios, sidewalks, curbs and driveways, around ornamental trees, shrubs, flower beds and plantings, around buildings. SPOT TREATMENTS: Spray directly on actively growing weeds in and around flower beds, ornamental trees, shrubs, fences, driveways and walkways.

4. If the lawn is dry [Under dry conditions], water lawn every other day for a week before applying Chemsico Herbicide Concentrate DFC (Alternate II).
5. Do not mow for 7 days before or after treatment.
6. Use 10 fl oz (20 Tbs) per gallon of water for each 300 sq ft of area to be treated.
