INERT INGREDIENTS:

65.28%

TOTAL 100.00%

*Heptachlorotetrahydro-1,7-methanoindene

WARNING
KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR CONTROL OF FIRE ANTS

5 pounds of 25% Heptachlor, or 1.25 pounds technical Heptachlor per acre is required. In insecticide-fertilizer mixtures, the recommended rate of insecticide per acre must be mixed with whatever amount of fertilizer you wish to apply per acre. For example: If fertilizer is to be applied at the rate of 500 pounds per acre, the correct mixture would be 25 pounds of 25% Heptachlor per ton to secure the recommended rate of 1.25 pounds technical Heptachlor per acre. For Broadcast Treatment, apply 5 pounds per acre as dust or spray. Recommended for use only on lawns and other ornamental turfs.

WARNING

May be fatal if swallowed. Do not get on skin. In case of contact, wash immediately with soap and water. Do not breathe vapor, fumes or spray mist. Avoid contamination of feed and foodstuffs. Keep children and pets off treated areas until this material is washed into the soil and grass is dry.

CAUTION

Birds feeding on treated areas may be killed. This product is toxic to fish and wildlife. Keep out of lakes, streams, and ponds. Apply this product only as specified on this label. Do not apply when weather
