ACCEPTED

SEP 6 - 1962

... way your personal deodorant works on your body.
Helps keep clothes outdoor-fresh and odor-free.

SHAKE WELL BEFORE USING

DIRECTIONS

1. Before spraying, make sure **ARROW** on button points to **RED** mark on can.
2. **SHAKE WELL**, hold can 6 to 10 inches from material at a 45° angle (as shown) with nozzle pointed toward fabric. Press button firmly and spray fabric evenly with a back-and-forth motion. For best results, fabric should be dry or slightly damp. If crisper finish is desired, spray and iron a second time.
3. Iron at a temperature setting correct for fabric. Spray and iron a portion at a time; or an entire garment may be sprayed, rolled, held for one to two minutes, then unrolled and ironed.

IMPORTANT: When through starching, remove button and rinse under running water. Replace button with arrow pointing to red mark on can. If spray does not dispense properly during use, remove button, rinse, replace, and again shake can well before spraying. Replace cap before storing.

ACTIVE INGREDIENTS: 1-Hydroxy-2 (1H)-pyridinethione, sodium salt 0.01%
Sodium o-phenyl phenate 0.01%
INERT INGREDIENTS 99.98%
USDA Registration No. 10023-1

CAUTION: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 120° F may cause bursting. Never throw container into fire or incinerator.
