

TIGRESS INSECTICIDE NO. 3

The Electro-Jet Sprayer

For Insect Control • Disinfecting • Deodorizing
Steam Cleaning

Electro-Jet is a versatile, effective, precision instrument that has proven its value through three decades of professional use. The secret of Electro-Jet's success is the high-powered steam it generates which combines with spray products to produce jets of finely atomized mist with a unique penetrating ability.

The steam-powered mist from Electro-Jet can cover large areas in a few seconds. It's so fine it rises, hangs in the air, and then dissipates instead of falling. This eliminates residue, which is left by almost every other type of sprayer and makes Electro-Jet ideal for restaurants, stores, schools, hospitals, commercial buildings, private dwellings, food-processing facilities, veterinarians, and pest control companies.

TIGRESS INSECTICIDE NO. 3

Non-staining
when used
as directed

For Control Of

HOUSE FLIES • GNATS • MOTHS • MOSQUITOES
ANTS • BED BUGS • CARPET BEETLES • CLOTHES MOTHS
COCKROACHES • FLEAS • LICE • SPIDERS
SILVER FISH • WATERBUGS

FLYING INSECTS

(Flies, Mosquitoes, Gnats, Moths)

Close infested areas to confine the spray mist and prevent insects from escaping. Turn off air conditioning and ventilation. Remove animals and birds from areas to be treated. Spray 1 oz. of Tigress Insecticide No. 3 for each 1,000 cubic feet of space. Do not remain in the sprayed area. Keep area closed for at least 10 minutes, then open and ventilate thoroughly before using. Sweep up and dispose of dead insects.

CRAWLING INSECTS

(Ants, Bed Bugs, Carpet Beetles, Clothes Moths, Fleas, Lice, Cockroaches, Spiders, Silver Fish, Waterbugs)

First clean area of any litter or debris. Spray infested surfaces thoroughly. Use one ounce to each 250 square feet. Place nozzle close to cracks and crevices, and under furniture and fixtures to insure penetration of all hiding places. Survey area a few minutes later to treat any insects still alive but driven from protected hiding places.

INSTITUTIONS, HOMES, STORES, THEATERS

Follow directions given for flying and crawling insects. Spray mist may be irritating to nose and eyes. All persons not involved in spraying should avoid the area during treatment.

CAUTION: Harmful if swallowed. Avoid contact with the skin. Avoid inhalation of the spray mist. May be irritating to the eyes. Do not contaminate food or feed. Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

FLAMMABLE: KEEP AWAY FROM HEAT AND OPEN FLAME

FOLLOW DIRECTIONS CAREFULLY FOR BEST RESULTS
