DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISINFECTANT — This detergent-disinfectant has been designed specifically for hospitals, nursing homes, schools, food processing plants, food service establishments and other institutions where housekeeping is of prime importance.

DISINFECTION — To disinfect hard inanimate surfaces (such as walls, floors, table tops), add 2 ounces of detergent-disinfectant per gallon of water. Apply solution with a mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

To disinfect toilet bowls, flush toilet, add 2 ounces of detergent-disinfectant directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

MILDEWSTAIN — To control mold and mildew on pre-cleaned, hard non-porous surfaces (such as floors, walls, table tops) add 2 ounces of detergent-disinfectant per gallon of water. Apply solution with a cloth, mop or sponge making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth appears.

PRECAUTIONARY STATEMENTS

Hazard to Human and Domestic Animals
DANGER

Keep Out of Reach of Children. Causes severe eye and skin damage. Do not get in eyes, skin or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash any contaminated clothing before reuse. If swallowed, drink milk, egg white or water. Do not induce vomiting. If necessary, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Possible mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 10637-1

D.O.C.

Disinfectant, Odor-Control, Cleaner

Reorder #34-508

ACTIVE INGREDIENTS
 5% Chloroxylenol
 2% Triclosan
 2% Benzalkonium Chloride
 1% Quaternary Ammonium Chloride
 1% Sodium Hypochlorite
 1% Sodium Bicarbonate
 1% Sodium Citrate
 1% Sodium Hydroxide
 1% Sodium Chloride
 1% Sodium Sulfate
 1% Sodium Phosphate
 1% Sodium Silicate
 1% Sodium Borate
 1% Sodium Aluminate
 1% Sodium Sulfate
 1% Sodium Chloride
 1% Sodium Bicarbonate
 1% Sodium Citrate
 1% Sodium Hydroxide
 1% Sodium Chloride
 1% Sodium Sulfate
 1% Sodium Phosphate
 1% Sodium Silicate
 1% Sodium Borate
 1% Sodium Aluminate

Pseudomonacidal
Staphylocidal
Fungicidal
Bactericidal

 See left side panel for additional precautions.

Ball D.O.C.

This is a potent disinfectant which provides effective germicidal action. Detergent-disinfectant has been designed specifically for hospitals, nursing homes, schools, food processing plants and other institutions where housekeeping is of prime importance in controlling the hazard of cross contamination.

When diluted at the rate of 2 ounces per gallon of water is an effective disinfectant against the organisms Pseudomonas aeruginosa and meets all requirements for hospital use. When used as directed, D.O.C. is formulated to disinfect inanimate hard surfaces such as walls, floors, toilets, toilet bowls, tables, chairs, telephones and bed frames. For larger areas such as operating rooms, patient care facilities and restrooms, the product is designed to provide both general cleaning and disinfecting.

In addition, D.O.C. deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls and any other areas which are prone to odors caused by microorganisms.

DISINFECTION — At 2 ounces per gallon of water, D.O.C. exhibits effective disinfectant activity against the organisms: Salmonella choleraesuis and Staphylococcus aureus & Pseudomonas.

At this level the product is also fungicidal against the Pathogenic fungi: TRICHOPHYTON MENTAGROPHITES.

VIRUCIDAL ACTIVITY: The product when used on environmental inanimate hard surfaces at 2 ounces per gallon of water exhibits effective virucidal activity against influenza A2-Asian (representative of the common influenza), Herpes simplex (causative agent of fever blisters and mononucleosis), Adeno virus type 2 (causative agent of upper respiratory infections), and Vaccinia virus (representative of the pox virus group).

EFFICACY TESTS HAVE DEMONSTRATED THAT D.O.C. IS AN EFFECTIVE BACTERICIDE, FUNGICIDE, AND VIRUCIDE IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE AND DISPOSAL.

STORAGE — Store in dry place, not in temperature below 50° or higher than 120° F.

CONTAINER DISPOSAL — Do not reuse empty containers. Treat empty containers with water. Return empty containers for proper disposal or reuse and dispose of in a sanitary manner, or by other procedures approved by State and local authorities. Empty containers may be disposed of in a sanitary manner, or by other procedures approved by local authorities, or burning if burned stay out of storm.

PESTICIDE DISPOSAL — Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
