Other Chlorophenols	0.09%
Bromacil (5-bromo-3-sec-	
butyl-6-methyluracil)	3.61%

INERT INGREDIENTS

TOTAL	100.00%
-------	---------

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

GENERAL WEED CONTROL: Pentacil RTU can be used to control most weeds for an extended period of time in non-cropland areas such as loading ramps, fence rows, railroad sidings, storage yards, parking lots, buildings and industrial sites.

To control annual weeds and grasses such as foxtail, grass, wildoats, crabgrass, cheatgrass, broomsedge, weed, lamb's-quarter and turkey mullein, Use 1 quart Pentacil RTU sprayed over 500 square feet.

For hard to kill perennial weeds and grasses such as Johnson grass, salt grass, Bouncing Bet, Bracke Horsetail, Smooth Broomer, Canada Bluegrass, purple top, bromsedge, aster, dandelion, dog, and wild carrot. Use 1 quart Pentacil RTU sprayed over 250 square feet.

CAUTION: Do not let the liquid come into contact with desirable plants, trees, vegetables, flowers, shrubs, ornamentals, other grasses or other desirable plants. Use spray nozzles to drift onto desirable plants or areas less likely to drift. Thoroughly wash hands before using for other purposes.

Do not apply to areas under direct rays of direct sunlight.

WARRANTY STATEMENT

This product is warranted to be of the highest quality and to perform as described on the label. It is sold as is, without warranty, except as stated on the label. The user assumes all liability for the use of this product in accordance with the statements on this label.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Harmful if swallowed or absorbed through the skin. Causes irritation to skin. Do not breathe vapor or spray mist. Do not get eyes, on skin or on clothing. Wash thoroughly after handling. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This Product is toxic to fish and wildlife. Birds and other wildlife in treated areas may be killed. Keep out of areas streaked with water. Do not apply where drift is likely to occur. Do not use in areas where weather conditions favor drift from treated areas. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not store, pour or spill near water.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed. Do not use in areas where open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticides should not be disposed of in drains, ditches, or on the ground. Pesticides should be disposed of in accordance with the instructions on the label or by Federal, State or local authorities.

CONTAINER DISPOSAL: Containers of this product should be triple rinsed and disposed of in accordance with the instructions on the label or by Federal, State or local authorities. Do not reuse for food or beverage purposes.

GENERAL: Consult Federal, State or local authorities for approved alternative practices.

KEEP OUT OF REACH OF CHILDREN WARNING

STATEMENT OF PRACTICAL TREATMENT

This product is a weed killer. It is used to control weeds and grasses in non-cropland areas. It is not intended for use on crops or other desirable plants. It is a contact herbicide and kills weeds and grasses by blocking photosynthesis. It is effective on a wide range of weeds and grasses, including annual and perennial species. It is easy to apply and does not require special equipment. It is safe for use around buildings, fences, and other structures. It is also safe for use around children and pets. It is a fast-acting herbicide and provides quick control of weeds and grasses. It is a long-lasting herbicide and provides extended control of weeds and grasses. It is a non-flammable herbicide and does not pose a fire hazard. It is a non-toxic herbicide and does not pose a health hazard. It is a non-corrosive herbicide and does not damage surfaces. It is a non-volatile herbicide and does not pose an air quality hazard. It is a non-persistent herbicide and does not remain in the environment for a long time. It is a non-accumulative herbicide and does not build up in the soil. It is a non-bioaccumulative herbicide and does not build up in plants and animals. It is a non-mutagenic herbicide and does not cause mutations. It is a non-carcinogenic herbicide and does not cause cancer. It is a non-reproductive herbicide and does not affect reproduction. It is a non-teratogenic herbicide and does not affect development. It is a non-embryotoxic herbicide and does not affect embryos. It is a non-teratogenic herbicide and does not affect fetuses. It is a non-embryotoxic herbicide and does not affect embryos. It is a non-teratogenic herbicide and does not affect fetuses.
