ONE QUART

CAUTION: KEEP OUT OF REACH OF CHILDREN.
READ OTHER CAUTIONS ON BACK PANEL.

COVERAGE

4000-8000 sq. ft.
1000-2000 sq. ft.

(During conditions other than 70° the higher application rates will be required to kill grass and weeds may require more than one application.)

APPLICATION

Best applied as a fine mist spray with tank pressure sprayer, trombone type sprayer or hose end insecticide sprayer. Partially fill sprayer with water, add proper amount of Weed and Grass Killer, add water. ALWAYS flush spray equipment thoroughly after using.

DIRECTIONS

WEEDS and GRASS: Mix 2½-5 ounces per gallon of water (5 to 10 Tbsp.). Thoroughly wet weeds and grass to point of run-off, and withhold water for 48 hours. Rain within 2-5 hours after application will reduce herbicidal activity. Do not permit spray to come in contact with desirable plants, trunks of trees, or exposed roots. Repeat as necessary.

ROCK GRAVEL and PAVED AREAS: Mix 2½-5 ounces per gallon of water (5 to 10 Tbsp.). This material is non-staining and is excellent for control of weeds and grass in paved or rock areas. Follow directions and cautions listed under Weeds and Grass.

TREE and SHRUB AREAS: Mix 2½-5 ounces per gallon of water (5 to 10 Tbsp.). This material may be sprayed under shrubs and trees without damage to roots. Follow directions and cautions listed under Weeds and Grass.

TURF EDGING: Mix 5 ounces per gallon of water (10 Tbsp.). Cover or protect portion of turf you do not wish to kill with 2 x 4 or other straight edge. Follow directions and cautions listed under Weeds and Grass.
