The Bug Man

INSECTICIDE

DIRECTIONS FOR USE

ACTIVE INGREDIENTS:

Pyrethrins	1.00%
*Piperonyl Butoxide, Technical	10.00%
Amorphous Silica Gel	40.00%
Petroleum Hydrocarbons	49.00%
	<hr/>
	100.00%

*Equivalent to 8.0% (butylcarbityl) (6-propylpiperonyl) ether and 2.0% of related compounds.

To control running and crawling insects, cockroaches, ants and silverfish, distribute Drione at the rate of 2 ounces per 125 square feet of surface area. Apply a continuous visible film underneath and behind stoves, refrigerators and appliances. Treat on, around and behind moulding, shelving baseboards, pipe openings, cracks, crevices and other areas where insects may hide. For severe infestations apply Drione behind cabinets and walls, in crawl spaces and attics, at the rate of 2 ounces per 125 feet of surface area.

Repeat treatment as necessary.

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Avoid Inhalation

Do not reuse container. Bury with wastes.

Do not use in commercial food preparation areas or in edible products areas of food processing plants.

This product is a finely divided powder which contains the flushing and killing powers of pyrethrins and piperonyl butoxide with the dehydrative principle of thermally attrited hydrogel. It is relatively odorless and non-staining and may be used in accordance with directions in homes, restaurants, stores, hotels, offices, plants and warehouses. When used as directed, it is highly effective in controlling roaches, silverfish and ants.
